COMPROMISE REJECTED

Germans Won't Consider Giv-  
ing Poland Temporary  
Seat in League

**BULLETIN**  
Geneva, (AP)—The allied representa-  
tives abandoned at the last moment  
their plan to hold another meeting  
with the German statesmen Saturday  
afternoon and revert to their original  
intention to submit the tangled  
question of reconstitution of the  
league council to the members of a  
body itself.

The council members met in private  
session at 5 o'clock in the office of Sir  
Ernie Drummond, the league's secre-  
tary-general.

Geneva, (AP)—Bitter Germany or  
France must give way in the contro-  
versy over the reconstruction of the  
council of the League of Nations if  
the league is to be saved and Europe  
not again driven to disunion. This was  
the situation Saturday as seen by  
close observers of the situation in  
Geneva.

The German representatives have  
reiterated that they cannot accept an  
obligation to approve a new non per-  
manent seat in the council for Poland  
for this would violate the fundamental  
policy which Germany has fashioned  
to guide her in her attitude as a mem-  
ber of the league—a policy of coopera-  
tion by all the members of the league  
and not a selective policy of giving  
herself with special groups.

Sir Austen Chamberlain, the British  
foreign secretary, announced Friday  
night that it was useless for the  
Rhine pact signatories to continue  
conversations with the Germans be-  
cause he was convinced they would  
be fruitless.

**REAL TRAGEDY**  
"We are faced with a real tragedy,"  
he said, "and it is impossible to pre-  
dict what the reaction will be."  
The allies under the leadership of  
France argue that Poland's appear-  
ance in the council is necessary. They  
declare that Polish-German relations  
consequently may become the world's  
peace hinge the logic of getting both  
Poland and Germany around the  
council table.

**EYES ON SPAIN**  
As the compromise proposal which  
the Germans rejected that of giving  
Poland a non permanent seat, does  
not take into consideration the de-  
mands of Brazil and Spain for per-  
manent seats, interest is centered in  
whether Spain will make good her  
threat to resign from the League of  
Nations and whether Brazil will take  
any drastic step.

It is considered not inconceivable  
under the present circumstances with  
bitterness aroused and old enemies  
reborn, that Germany will be refused  
a permanent seat in the council  
which would mean that she will not  
enter the League of Nations.

Sir Austen Chamberlain hinted that  
such a development was a possibility  
for he said in his statement that the  
Locarno spirit had been paralyzed.  
The current meeting of the league  
was called to adjourn Germany.  
The Germans say there is consid-  
erable opinion among them to re-  
turn to Berlin immediately and no  
longer support the policy of waiting  
at the door of a house which long ago  
they had been invited to enter be-  
cause this is an insult to German na-  
tional pride.

PASSENGER SENDS  
RAILROAD \$3 FOR  
MISTAKE IN FARE

Green Bay, (AP)—Officers of the  
Green Bay and Western railroad here  
believe that the age of  
miracles has not passed, and have  
acquired an abiding faith in hu-  
manity.  
Saturday morning a letter was  
received from La Crosse, Wis.,  
containing three one-dollar bills  
and the following note:  
"Inclosed you will find \$3 in  
paper money. I owe it to you  
through some mistake in railway  
fare."  
"From an honest customer."  
The money, said president F.  
B. Seymour, has been placed in  
the company's "conscience fund"  
and is the second contribution in the  
history of the railroad.

CALL 4 MORE  
WITNESSES IN  
COURT PROBE

Examine Newspapermen in  
Justice Tampering In-  
vestigation

Madison, (AP)—Circuit Judge A. C. Hon-  
mann took under advisement Satur-  
day the question whether an attempt  
had been made to obstruct justice in  
the trial of Rudolph Lessner, charged  
with slaying a policeman by the pub-  
lication of editorials in the Madison  
Capital Times.

Madison, Wis. — (AP)—Four more  
witnesses were called for questioning  
Saturday in the John Doe hearing  
ordered by Circuit Judge A. C. Hon-  
mann in connection with the publi-  
cation of editorials in the Madison  
Capital Times. The editorials alleged  
that in an attempt was made to arouse  
religious prejudices in behalf of  
Rudolph Lessner, charged with slay-  
ing Palmer Thompson, a policeman.

Glenn D. Roberts, assistant district  
attorney, Bryan Griffin, city editor  
of the Wisconsin State Journal, Har-  
old Griffin, a reporter, and James L.  
Clark, prominent business man were  
the witnesses Saturday. A subpoena  
has been issued for Thomas McCon-  
tern, a former alderman but had not  
been served Saturday morning.

Ted M. Wylie, Madison, and Wil-  
liam B. Rubin, Milwaukee, attorneys  
for Lessner, the Rev. Francis Mur-  
phy, pastor of St. Raphael's Catholic  
church and Leo T. Crowley, business  
man were questioned Friday night.  
William T. Dyke, editor of the Capital  
Times and several others were  
questioned Friday.

Defense counsel for Lessner have  
asked that contempt of court pro-  
ceedings be brought against Dyke  
in connection with the editorials.

ILL HEALTH CAUSES  
MAN TO HANG HIMSELF

Milwaukee, (AP)—John R. McCoy,  
38 years old president of the McCoy  
Nolan company, hanged himself in a  
room at the Riverside sanatorium  
here Saturday morning. McCoy had  
been ill for some time but his condi-  
tion was not considered especially  
serious.

McCoy, a graduate of Notre Dame  
has a record as an athlete at that  
institution.

MANITOWOC MAN DIES  
WHILE ON WORLD CRUISE

Manitowoc, Wis. — (AP)—William D.  
Richard, former business man here  
and for several years located at Los  
Angeles, Calif. died aboard a steam  
ship while on a world tour at Bombay  
India, messages received here Satur-  
day announced. He was 70 years of  
age and for years was associated with  
the Richards Iron Works here and  
later heavily interested in other busi-  
ness enterprises. A widow and three  
children survive.

CHAMP GOLFER LOSES  
IN BELLAIRE TOURNAY

Bellaire, Fla. — (AP)—Miss Glenna  
Collect, National women's golf cham-  
pion, met defeat here Friday in the  
finals of the Bellaire championship for  
women losing to Miss Helen Payson  
of Portland, Me., 2 up.

The result was an upset. Miss Pay-  
son usually being unable to best Miss  
Collect but Friday the champion was  
"off" in putting while the Portland  
woman played exceptional golf.

BLUE PAJAMAS  
NAB SLAYER IN  
OHIO MYSTERY

Husband Confesses He Slew  
Pretty Wife Because She  
Twitted Him

Troy, Ohio, (AP)—Ohio's perfect  
crime has been solved and Jacob C.  
Nesbitt is in jail here awaiting trial  
for the murder of his pretty and ac-  
complished wife Frances, a former  
Ohio State university swimmer and  
tennis star.

Three weeks from the day Nesbitt  
reported finding the body of his wife  
in the bathroom of their home with  
her skull fractured he was taken to the  
scene of the crime and after a  
five hour grilling confessed he killed  
her following a quarrel over busi-  
ness affairs.

They both sold kitchen appliances  
and he twitted her because of her  
ability to sell more than he. "I slap-  
ped her when she said my folks were  
illiterate," he declared. "Then every-  
thing went red and I do not remem-  
ber what happened."  
**PAJAMAS IS CLEW**  
A pair of blue pajamas constituted  
the principal link in the chain of evi-  
dence forged around Nesbitt. These  
were missing from the home after the  
murder. Nesbitt asserted he did not  
know where they were. Mr. and Mrs.  
Preston Brown, friends of Nesbitt,  
who remained at the Nesbitt home the  
Wednesday preceding the crime said  
Nesbitt asserted he did not wear them  
then. This discrepancy aroused suspi-  
cion and led to the eventual con-  
clusion that Nesbitt had destroyed the  
sleeping garments.

**ACCUSED OF CRIME**  
He was taken to the Nesbitt home  
Friday by Ora Slater, a private detec-  
tive, county officials and friends.  
Avery bit of evidence was placed be-  
fore him and he was accused point-  
blank of having committed the mur-  
der.

For five hours he maintained his  
innocence then when his friends said  
it was the general opinion in Troy he  
was guilty he began to weaken and a  
threat by Slater to turn him over to  
the prosecutor precipitated the con-  
fession.

Nesbitt himself was a graduate of  
Ohio State university in 1923, a foot-  
ball player and a fraternity member.  
His parents died when he was young  
and he was reared here by Mr. and  
Mrs. Samuel Hottle. Since the murder  
he has lived at the home of Mr. and  
Mrs. Charles Drake, parents of his  
wife. Mrs. Drake Saturday asserted  
she killed Frances because she was  
jealous. She had steadfastly maintained he  
was innocent.

I. H. Shippman, Nesbitt's attorney  
said he had not made any plans for  
his defense. County officials will de-  
cide Saturday what charge will be  
preferred against him.  
Nesbitt in mental and physical dis-  
tress, has barred himself from news-  
paper men.

ONE KILLED, THREE ARE  
HURT IN TRAIN WRECK

Highland, Ill. — (AP)—One trainman  
was killed and three others severely  
injured when Peoria mail and ex-  
press train No. 13 was derailed near  
Pierian III 7 miles east of here early  
Saturday.

Charles Hackett, engineer, was the  
man killed. The names of the three  
men injured could not be learned.  
The train a double header was en-  
route from the east to St. Louis with  
mail express and some passengers.  
Officials refused to comment on the  
cause of the wreck pending an in-  
vestigation.

24 UNDER ARREST IN  
LIQUOR CONSPIRACY

St. Paul, Minn. — (AP)—Four more  
arrests made public here Saturday  
brought to 24 the number of Minne-  
sota men arrested this week in con-  
nection with the illicit liquor conspiracy  
investigated by a federal grand jury  
at Cleveland.

The most recent arrests were made  
Friday night and Saturday and  
coupled with their announcement was  
the information that several addition-  
al warrants are out for Minnesotans.

AIRMAN SENDS  
HIS PLANE UP  
41,000 FEET

Famous Aviator Forced Down  
in First Attempt to Set  
New Mark

Dayton, Ohio, (AP)—Lieut. John A.  
Macready probably established a new  
world altitude record Saturday morn-  
ing. It was believed after his landing  
at McCook field at 12:43. The in-  
struments on his plane indicated an  
altitude of 39,000 feet. Calibration is  
expected to raise that figure to 41,000  
feet. The record, held by M. Callis,  
French aviator, is 39,538 feet.

Macready took off in his first at-  
tempt from McCook field at 9:35 but  
was forced down ten minutes later  
because of ignition trouble. The trou-  
ble was remedied and Macready as-  
cended again at 10:47.

Macready was in the air exactly  
one hour and 56 minutes. He made  
a previous start at 9:13 A. M. but was  
forced down by ignition trouble. This  
occurred again on his second flight.  
In spite of the intense cold of the  
rare atmosphere the flyer did not  
suffer much because of his swath-  
ing of clothes.

Macready as on previous altitude  
attempts did not show any ill effects  
of his dash to a point eight miles  
above the surface of the earth.

COOLIDGE'S FATHER  
SLIGHTLY BETTER

Plymouth, Vt. — (AP)—Except for  
slightly more pronounced weakness  
the condition of Col. John C. Cool-  
idge father of the president who is  
ill at his home here remained un-  
changed Saturday. This was the sub-  
stance of a bulletin issued by Dr. Al-  
bert M. Cram, his physician after-  
noon day call.

FIND BODY OF MAN  
IN VETERANS' BUREAU

Milwaukee, (AP)—The body of  
Rudolph Kadow, 35 years old, was  
found in a gray tiled room at the  
United States veterans bureau here  
Saturday morning. According to em-  
ployees of the bureau Kadow has  
been ill from a cold for the past two  
weeks and disappeared of complete re-  
covery.

Charles Hackett, engineer, was the  
man killed. The names of the three  
men injured could not be learned.  
The train a double header was en-  
route from the east to St. Louis with  
mail express and some passengers.  
Officials refused to comment on the

LIFE TERM FOR  
ATTACKING GIRLS

Chicago Jurist Imposes Max-  
imum Penalty After Jury  
Says Pair Is Guilty

Waukegan, Ill. — (AP)—Stanley Mo-  
ran and John Mundry of North Chicago  
both 27, were found guilty of a  
statutory charge by a jury in circuit  
court here Friday and sentenced to  
life imprisonment.

Moran and Mundry were charged  
with attacking two Waukegan girls  
on the afternoon of Christmas day,  
1925, when they took them for an au-  
tomobile ride. The jury deliberated  
three hours before returning the  
guilty verdict.

Both sought defense by claiming  
an alibi Moran asserting he was in  
Racine, Wis., at the time of the at-  
tack and Mundry seeking to prove he  
was in North Chicago five witnesses  
who testified for the defense are  
charged with perjury as a result of  
their part in the trial and are held un-  
der \$5,000 bonds each.

Judge Clure C. Edwards indicated  
he would deny motion for a new trial  
for Mundry and Moran.

SUGAR BOAT BURNING  
OFF MARYLAND COAST

Baltimore, Md. — (AP)—The British  
steamer Taina, sugar laden from  
Cuba for Baltimore, was reported on  
fire near Sandy Point, 20 miles below  
Baltimore Saturday morning. Two  
local fire boats were sent to her as-  
sistance and residents along the shore  
in that vicinity telephone that they  
were alongside the Taina about a  
clock. Smoke was pouring from the  
ship they said.

The marine observer at North  
Point reported the Taina passing up  
the lower harbor at 9:30 A. M. She was  
flying two black balls indicating that  
the craft was not under control. A  
tug was alongside but the observer  
said he could see no signs of fire  
aboard.

Peppy Vice President Is  
Putting Life In Senate

Washington, D. C. — (AP)—Whether  
to remind the senate of his view that  
its rules are archaic or for other rea-  
sons Vice President Dawes digs up a  
rule now and then that even the old-  
est of the elder statesmen seem to  
have forgotten was in the book. The  
latest he has invoked is that requir-  
ing senators to face the chair when  
speaking. He enforced that one Fri-  
day when Senator Watson of Indiana,  
one of the Republican wheel  
horses, was interrogating Senator  
Fess Republican Ohio, who was in  
a seat far behind the Indiana sena-  
tor. "I'm against that rule," shouted  
Senator Watson but the vice pres-  
ident smiling broadly the while in-  
sisted on its observance. Only a day  
or two ago during a heated prohibi-  
tion discussion General Dawes with  
vigorous use of his handless paw  
enforced another rule which some  
senators contended didn't mean what  
he thought it meant.

Coolidge Not Worried By  
Probe Of Tariff Board

**BY DAVID LAWRENCE**  
Copyright 1926, by Post Pub. Co.  
Washington. The active of the  
senate in ordering an investigation of  
the tariff commission demonstrates  
two things. First, that Mr. Coolidge  
has a tenuous hold on the upper house  
of congress and that a coalition of  
Democrats and Insurgent Republi-  
cans can thwart his will any second  
that congress is more or less re-  
pentant that it ever delegated to the  
chief executive any discretionary  
power with reference to the opera-  
tions of the tariff law.

The debate over the insertion of  
the word "Progressive Republican" in  
a senate resolution is significant of  
troubles ahead for Mr. Coolidge. The  
Democrats joined with the insurgents  
in definitely using the classification  
"Progressive Republican" to apply to  
that group which is informally led by  
men like Senators Borah of Idaho and  
Norris of Nebraska. For the "pro-  
gressive" group is not organized as  
such and until the resolution was  
adopted on Thursday there had been  
an attempt to designate the different  
types of republicans. Under the new  
resolution the vice president is sup-  
posed to select the investigating com-  
mittee and must choose at least one  
"Progressive Republican." This  
means that Mr. Dawes will have the  
task of deciding who is a progressive.  
It places the issue squarely before  
him.

**WHAT DOES IT MEAN?**  
There are several senators who are  
not necessarily followers of either Mr.  
Norris or Mr. Borah who consider  
themselves progressives, but it is a  
question whether they would care to  
have themselves grouped in any  
classification from the regular re-  
publicans' which term has come to  
mean supporters of the administra-  
tion. It is therefore not the explicit  
but the implicit meaning of the word  
"progressive" which is employed by  
some of the Progressive Republi-  
cans' really consider themselves in-  
dependent republicans in the sense  
that they are not bound by party tie  
to follow the administration on most  
questions. Typical of this group is  
Senator Couzens of Michigan who is  
labeled as a progressive by members of  
the Norris group but who is really an  
independent republican. He an-  
nounced in his campaign a year ago  
that he would support Mr. Coolidge  
whenever he believed the president  
was right and would oppose him  
whenever he thought he was wrong  
on public questions.

It is significant that when Senator  
Bingham of Connecticut moved to  
strike out the word "Progressive Re-  
publican" from the resolution two  
senators—Mr. Couzens of Michigan  
and Mr. McMaster of South Dakota—  
voted to strike out the two words. The

SEEK MURDER WRIT IN  
KELLNERSVILLE FIRE

Madison, (AP)—William A. Green-

vised W. Stanley Smith, state fire  
marshal in a telegram Saturday that  
he expected to ask for a warrant  
charging first degree murder in con-  
nection with the death of Mrs. John  
Yobinski, 75, of Kellnersville. Green-  
wald has been investigating whether  
the woman was burned to death in the  
fire which destroyed her home Febru-  
ary 21. She and her husband have been  
struggling although living under the  
same roof, Smith said.

It is all a somewhat new experience  
to the senate but one to which that  
heretofore leisurely body appears to  
be adjusting itself, momentarily at  
least.

Weigle Warns Appleton to  
Keep Eye on Minnesota  
Business Getters

A membership of 609 in Appleton's  
Chamber of Commerce was reported by  
Appleton "Builders" Friday evening  
at a dinner at Hotel Appleton. The  
dinner concluded Appleton's Civic  
Week and marked the close of an in-  
tensive 2-day membership campaign  
by the chamber of commerce.

Although this is more than 100 short  
of the goal, the workers were well  
satisfied. It was the nucleus of an  
opinion that the campaign was per-  
haps the most successful the cham-  
ber has ever conducted, and all ex-  
pressed their gratification at the re-  
sults achieved after such a short ef-  
fort.

The "Builders" will continue their  
campaign of the city next week in an  
effort to reach the quota of 720 mem-  
bers. A number of Appleton business-  
men have not yet been approached,  
and the workers are confident that the  
goal will be realized after all "pros-  
pects" have been interviewed.

**\$2,741 COLLECTED**  
Money turned in on 609 members-  
hips totaled \$2,741.25. Of this amount,  
\$1,738.50 was received Thursday morn-  
ing when 403 members were secured.  
The White division, under the com-  
mand of Major R. K. Weller, led the  
campaign with 201 memberships.

Major Walter Joyce, Green division,  
placed second with 150 and the Pink  
division of Major Joseph Koffend Jr.  
was close behind with 139. The  
Orange division in command of Major  
H. K. Pratt added 119 more mem-

ST. SUCCESSFUL WEEK

That this was the most successful  
Civic Week he has ever conducted,  
was the declaration of Dan Weigle,  
noted community engineer, who de-  
livered a series of addresses here  
during the week, starting last Sun-  
day. He congratulated the workers  
on the outcome of the membership  
campaign stating that they had  
secured more memberships in two  
days than any other chamber he had  
ever worked with.

"I wish it would be possible to ob-  
tain as hearty a response from all  
communities in chamber of com-  
merce work as has been displayed in Appleton,"  
Dan Weigle said. Appleton  
work was prepared from the first and the  
work was carried out with a spirit  
of progressiveness which is not  
pleasing.

"But now that you have such a  
good start you must cash in on your  
results. The chamber of commerce is  
either worth something or nothing,  
and the latter situation will exist if  
you don't keep plugging along always  
with the aim of accomplishing some-  
thing."

**WATCH MINNESOTA**  
One of the things the chamber of  
commerce should be ex-acting to be  
traffic business, Mr. Weigle pointed  
out.

# CHURCH CHOIR SINGS GOUNOD'S EASTER CANTATA

Splendid Musical Service Will  
Be Given at Congregational  
Church Sunday Evening

One of the first and most attractive Easter musical services in Appleton this season will be Gounod's cantata "Gallia" to be sung by the choir of the First Congregational church Sunday evening. Isabel Wilcox, soprano will be the soloist. In addition there will be solos by Marion Hutchinson-McCreedy, alto, and Marion Ramsay Waterman, soprano, and several numbers by the Fullinwider trio preceding the cantata itself. Members of the trio are Percy Fullinwider, violin; Joseph Zieker, cello; and Nettie S. Fullinwider, piano.

The choir will be enlarged by the addition of several voices from the schola cantorum. Lawrence college choir, so that about 60 singers will take part in the program. Carl Waterman, dean of Conservatory of music will direct the singers. The complete program is as follows:

Organ Prelude.....Lavan Maesch  
Motet, "Angel Voices Ever Singing,"  
.....MacFarlane

## LIBERTY LOAN MEDALS SENT TO MELTING POT

Washington.—(AP)—The last remaining material vestiges of the stirring days of Liberty Loan drives—thousands of surplus badges, buttons and medals which were awarded by the government for meritorious work in the collection of war funds—are being eradicated via the smelting furnaces at the Washington Navy Yard. After the war these insignia were returned in vast numbers to the Treasury Department and the method of disposing of them long has been a problem. A plan finally was evolved to melt them, and it is regarded as likely that some of the medals may be diverted into the channels of the gun factory.

## CONTACT WITH WORLD COSTLY TO WIERINGERS

Wieringen, Holland.—(AP)—The honest folk of this island, widely known as former place of exile of former German Crown Prince, have not spent an hour's quiet rest of nights since the island was joined to the mainland by a dam as part of the great Zuiderzee drainage scheme.

Wieringen was an Arcadia where all the rugged and pristine virtues reigned. Burglaries or robberies were unknown. Since the dam was laid, however, the islanders have been suffering from a veritable plague of thieves and other undesirable elements who have descended upon them from the mainland.

Wieringers now are asking themselves whether it was worth while to come into closer contact with civilization.

## RADIO INVENTOR GETS CERTIFICATE OF MERIT

A certificate of merit has been awarded by the Radio News Laboratories of New York to the Radio Service Laboratories of this city signifying approval of a new transformer made by the local company. William Weimer, Sr., and Edward Boland are the joint proprietors of the local radio concern. They sent the transformer to the New York concern for testing and the merit certificate was their reward. The Appleton men were also informed that an article on the transformer would appear in an early issue of Radio News.

William F. Kamps of Milwaukee, formerly employed as cashier at the Outagamie county bank in Appleton, is visiting in Appleton for a few days.

## IMPORTANCE OF ALL-STEEL BODY

All-Steel Construction Adopted 11  
Years Ago by Dodge Brothers

Quieter, Lighter, Longer Life, Increased  
Safety Due to Greater Strength  
and Broader Vision

The world over Dodge Brothers are known for one contribution of immeasurable importance to the Automobile Industry—successful production of the first passenger automobiles fitted with all-steel open bodies and the first with all-steel closed bodies. The importance of this achievement will, in the future, be regarded just as much an epoch in the Automobile Industry as the successful building of the first steel passenger coaches is to railway transportation, of all-steel steamships to navigation and of all-metal planes to aviation.

Dodge Brothers, according to the Walter Motor Company, while still engaged in manufacturing motor car parts for others and while planning the car which was to bear their name, with keen insight into the future, saw clearly the need for the all-steel motor car. The all-steel railroad coach had demonstrated its great superiority over the wood framed car in freedom from squeaks and noises and also as a saver of lives in case of accident. Why not an automobile body entirely of steel?

"And now the whole automobile industry," says Mr. R. K. Walter, "has begun to recognize that the all-steel body is the automobile body of the future."

"It is entirely logical to look to Dodge Brothers Motor Car—on which have been devoted over eleven years of constant faithful effort toward the improvement of this type of construction—for the highest development of the art of building all-steel bodies. The low graceful all-steel closed bodies now displayed on Dodge Brothers standard chassis stand out as the crowning achievement of this unflagging, zealous effort for improvement.

"The slender steel pillars afford breadth of vision—heretofore unapproached in closed car bodies—yet the strength and safety for which Dodge Brothers Motor Cars have become so well known are unimpaired. The method of welding and riveting the pressed steel body frame members and panels into one well braced assembly insures absolute freedom from loose joints and squeaks throughout the long life of the sturdy body.

"Substantial reduction in the weight afforded by the new steel bodies—increased quietness—improved flexibility and smoothness of performance—all are the results of adherence to the sound policy of constant refinement. All of these improvements have contributed toward increasing the already well known safety, driving ease and riding comfort of Dodge Brothers Motor Cars.

"Adoption of color, a recent innovation with Dodge Brothers, Inc., is the subject of favorable comment by all who see the new cars. The deep lustre of the blue and the gray lacquer contrasting, pleasingly with the high gloss of the baked enamel on the fenders, appeals to everyone. And both the enamel and lacquer can with very little effort be kept looking like new throughout the long life of the car," adv.

## MINNESOTA PROFESSOR DEFENDS MR. SPARROW

St. Paul.—(AP)—When English sparrows bring to their nest 500 destructive caterpillars in one day "as" one pair did they are entitled to consideration as a most useful bird, declares Professor A. G. Ruggles, Minnesota agricultural college entomologist. A second pair brought 500 insects of various kinds to their young in one hour. Besides, Professor Ruggles estimates, many insects were eaten by the adult birds. The birds frequently consume insect eggs equivalent to one-half of their own weight.

## ENGLISH BLOODSTOCK INDUSTRY GROWS FAST

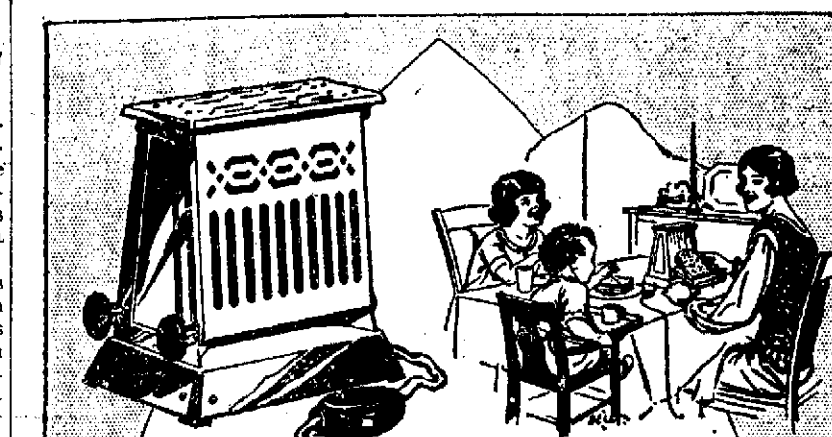

Newmarket, Eng.—(AP)—Breeder of racehorses and bloodstock generally are of the opinion this industry has developed into one of Britain's best.

Export demand has grown to such an extent of late years that England is said to be supplying the world with bloodstock.

At the December sales here there were buyers from no less than fifteen countries including the United States and South America. American buyers are said to be the keenest and buy only the very best thoroughbred animals for stud purposes.

## Disloyalty

Read Jn. 13:16-26. Text: 13:18. He that eateth my bread lifted up his heel against me.

Mediation—The 41st Psalm chants the disloyalty of a familiar and trusted friend. As the Master faced his cross the mocking of the multitude for whom he must needs suffer was bitter, but the dregs of the cup was in the treachery of a trusted disciple. Here again he must be tried at all points. If the man you loved can betray you in such an hour, can you be sure of loyalty anywhere? We are betrayed in the house of our friends.

In the very fellowship of the Church, Jesus kept his faith in the Father, and in the loyalty of his disciples, though the darkness of Judas' deed was over him.

Prayer—O Eternal Father, we are spilt by prejudice, so blinded by pride, so dense to the simplest things. We are so burdened by things that do not matter that we easily are disloyal to Thee. Thou has trusted us and blessed us, but in the hour of discipline we are ready to deny Thee. Pardon our littleness, our folly, our fickleness of spirit toward Thee and those who love us. Give us breadth like the sea, with constancy like Christ's. Amen.

## STATE IS SURVEYING LONG TUNNEL PROJECT

Seattle—(P)—Survey of a proposed thirty-two mile automobile and railroad tunnel through the Cascade mountains has been undertaken by the state of Washington and a committee authorized by the last legislature will report next January on the feasibility of the plan.

The tunnel would be financed with national, state and railway money. The Simpson tunnel through the Alps, for trains only, now is the longest, with a length of 12½ miles. The Moffat tunnel in Colorado being dug under the main range of the continental divide is six miles long. It will be used

by both trains and automobiles and also is designed for carrying water from the western to the eastern slopes of the Rocky Mountains.

General H. M. Chittenden, who died here in 1917, conceived the idea of the thirty-two mile Cascade project. He was the originator, too, of the idea for the ship canal which now links Lake Union, within Seattle, and Lake Washington, on the city's inland margin with Puget Sound and the Pacific Ocean.

The Great Northern railway already is starting an eight mile tunnel through the Cascades to eliminate grade difficulties, cut operating costs and reduce operating time of trains between Chicago and Seattle, several hours.

# Go To Church Tomorrow

## Lenten Reflection

Many persons go for months and even years without giving any serious thoughts to religion. Then, of a sudden, in the hour of calamity, the mind turns to GOD.

When *The Dread Hour of Sorrow Strikes*—remember the *Church Stands Ready* to fulfill her ministry of comfort and instruction. In sickness or in death, in the calamities of character that are worse than either, and in every other extremity of the human soul, the servants of the gospel await your call.

The *Church* yearns to assure men that she wants to be helpful in every possible way. Like her *Master*, she is in our midst, "Not to be ministered unto, but to minister"—Her ministers would kneel at every deathbed and stand by every grave, speaking the *Gospel of Life*.

## CITY MAY TAKE AUTOMOBILES OF LATE TAXPAYERS

Action Won't Be Necessary  
Unless Many Are Tardy,  
F. E. Bachman States

If much personal property tax remains outstanding this year, Appleton may follow the example of Oshkosh and Fond du Lac in enforcing the state law authorizing the seizure of property on which taxes have not been paid, according to Fred E. Bachman, city treasurer.

Although this law has been in force for a long time, it has seldom been enforced here. Mr. Bachman said. No action of such a nature has been taken against Appleton property owners for several years.

The number of delinquent payers was never large. This fact alone probably prevented the city from carrying out such a severe action. Mr. Bachman does not think it likely that it will be necessary to resort to the law this year any more than any other year, but the city could not afford to confiscate personal property if a large number of persons failed to pay their taxes, he pointed out.

That the law has the desired effect of putting people into a paying mood is indicated by the experience of officials at Oshkosh. In two cases where automobiles were seized and news of the action had spread, there was a rush to the city hall such as the treasurer had not witnessed for some time. Everybody not only wanted to pay, but they had the money with which to pay.

In another instance at Oshkosh the police, who have inaugurated an active "seize and carry" campaign, started to carry out a typewriter from an office. They were prevented from doing so, however, by the owner, who produced a check for the desired amount in short order.

Officials of Fond du Lac have decided to attach automobiles of the delinquents, and have instructed the police department to take such action. Fond du Lac, the city officials claim, has failed to collect thousands of dollars in taxes each year, and it is anxious to make a thorough collection this time.

As in Appleton, threats were made to the slow payers but no steps were ever taken to carry out the threats. Tax dodgers consequently assumed that the city had no redress and that they might as well continue in this manner, which was decidedly cheaper. When a city shows it means business, however—well, that's different.

## SENIOR CLASS

### SELECTS CARDS

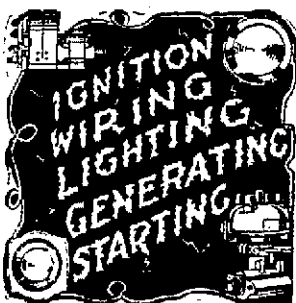

Announcements and Invitations Are Chosen by Secret Ballot

Commencement announcements for the senior class of 1926 were selected at a class meeting Thursday morning by a secret ballot method, and another meeting has been called for Monday afternoon when each student will place his order for invitations and announcements.

The method of selection this year was different from previous years when the class knew from what firms the sample announcements had been sent. Letters were sent in January to each Appleton concern that sells commencement announcements asking the establishment to send samples to the school if it wished to bid for the order.

A committee composed of Miss Ruth McKennan, class sponsor, Carl Schiebler, president of the class, and H. H. Heible, principal of the high school, met last week to consider the samples sent by local as well as out-of-town firms, and by a process of elimination chose the best and most reasonably priced cards. The announcements selected were then presented to the class without the names of the issuing companies, in order to make the choice entirely unbiased.

About 2,000 announcements probably will be purchased by 195 senior students.

## YOUR INCOME TAX

No. 7

Net income, upon which the income tax is assessed, is gross income less certain specified deductions for business expenses, losses, contributions, bad debts, etc. A storekeeper may deduct as a business expense amounts spent for rent of his space of business, advertising, premiums for insurance against fire or other losses, cost of water, light and heat, used in his place of business, drayage and freight bills, and the cost of maintenance and repair to delivery wagons and trucks, and a reasonable allowance for salaries.

A professional man, such as a lawyer, doctor, or dentist may deduct the cost of supplies used in his profession, expenses paid in the operation and repair of automobiles used in making professional calls, dues to professional journals, office rent, cost of water, light and heat used in his office, and the hire of office assistants.

The farmer may deduct as necessary expenses all amounts actually expended in carrying on the business of farming, such as amounts paid in the production and harvesting of his crops, cost of seed and fertilizer used, cost of minor repairs to farm buildings, and cost of small tools used up in the course of a year or two. The cost of farm machinery, equipment,

## BERG EXPECTED COURT DECISION ON CAR DRIVERS

Months Imprisonment  
Enough for Drunken  
Chauffeurs

The decision by the state supreme court Wednesday that anyone who drives his machine while intoxicated can be deprived of the use of the car for a period not exceeding one year if the court chooses to impose such a penalty, has been expected for some time by Theodore Berg, municipal judge of Outagamie co. The local judge heartily indorses the law and has been applying a six month "paid lock" to cars of drunken drivers of this county since he took office last summer.

Judge Berg stated, however, that he believes that six months is long enough to cure the offender and he will continue to inflict that punishment. Other courts, now that they are backed by a supreme court decision, may become even more severe with drunken drivers.

## VOCATIONAL SCHOOL SHORTENS TERM 4 WEEKS

The term of the Appleton vocational school will conform hereafter to that of other schools in the city, it was decided at a meeting of the vocational school board at the school Thursday evening. The vocational school has always had a 46 week term, opening before other schools and closing later, but in the future it will have a 36 week session. And the opening and closing dates will be the same as the other institutions.

Routine business occupied the rest of the meeting. Dinner was served at 6:30 by the part time girls of the Thursday group.

## The smoothest thing on wheels

This is the characterization most frequently applied to the Willys-Knight Great Six by its swiftly mounting number of delighted owners. And it aptly sums up this car's truly marvelous performance-ability.

No other automobile has the super-power and speed, the smoothness and silent running qualities of the Willys-Knight Great Six. No other steers so easily or rides so comfortably.

The patented Knight sleeve-valve engine, the only known motor-

car engine that improves with use—and a steering-mechanism equipped with 8 Timken bearings, more than any other car built—these are two major superiorities, exclusive with the Willys-Knight, that contribute immeasurably to the Willys-Knight owner's advantage.

## Buick is More Expensively Built But it Costs Less to Buy one

Buick is built more expensively than any other cars in or near the Buick price class.

"Expensively built" means that the different parts and units of the Buick motor car are the best that engineers can design. But, thanks to the large volume which public demand has given to Buick, and thanks also to production methods that are models of efficiency in an efficient industry, the Buick motor car can be sold to you at a very moderate price.

Many Buick features are duplicated only in America's highest priced motor cars.

Buick, for instance, uses the Torque Tube Drive to transmit the drive of the rear wheels to the chassis, instead of burdening the rear springs with this added duty. The highest priced car in America uses the torque tube. And so does Buick!

The American public wants finer transportation and Buick provides it at lower cost. Consequently Buick is a very popular car. Come in and examine the Better Buicks.

## All Girls Invited To Job Talks

About 200 invitations have been issued to girls interested in vocational work at Appleton Women's club asking them to bring others to the Vocational guidance conference sponsored by the Sports Council of the club and the Business and Professional Women's club on March 16 at the club Managers of business establishments in Appleton have urged their women employees to attend the lectures and discussions, and announcements have been made of the conference at the high schools, vocational school and Lawrence college. Miss Martha Chandler, recreational director of Appleton Women's club said:

Dr. Jennie McMullen Turner of the state board of vocational education will give a general survey of vocational opportunities for women and girls, and will sketch briefly the entire field of business, without talking of any one occupation in particular.

The Store and Office as Vocational Opportunities will be the subject of the address by Mrs. Flora T. Young, director of education at the Fair Store in Chicago. This will be a specific talk on the possibilities for women and girls in these two fields.

The aim of this conference is not only to show the girl out of a job where she might find another, but is also to demonstrate how the present position might be enlarged and developed and what greater possibilities there are for women in business.

Dinner will be served at the women's club at 6:30 Tuesday evening, and following the dinner Dr. Turner and Mrs. Young will speak. After the formal meeting there will be opportunities given for round table discussions and interviews with the speakers. Women and girls who are interested in hearing either of these vocational guidance workers have been urged to attend.

Pauline Gaton, movie star, becomes the bride this month of Lowell Sherman, who has played the part of sinister villain in countless celluloid dramas.

## Club Puts On Another Doll Show

Goldlocks and the Three Bears will be the next puppet show given by the Eta Eta Psi club of Appleton Women's club under the direction of Miss Editha Steffensen, physical education director of the club. It was announced following the performance of Jack and the Beanstalk at the Playhouse Friday afternoon.

Before the marionette show, "Jack" the nimble doll of the play, came out to announce that Miss Martha Chandler, recreational director of the club would tell the story of Lona Broad and Sharp-shoot to the children. Jack, the Giant, Jack's mother, Mrs. Galt, and the "chicken that laid the golden egg" were the characters in the play and following the how Jack danced and performed several stunts.

Miss Editha Steffensen, Miss Irene Rader, and Miss Doris Loessel spoke the parts of the characters and manipulated the strings attached to the dolls. The marionettes were made by the Eta Eta Psi club under the direction of Miss Steffensen, and the girls now are working on the dolls for the performance of Goldlocks and the Three Bears. About 60 children attended the performance.

Now in Good Health by Using Lydia E. Pinkham's Vegetable Compound

Lansing, Mich.—"I have taken Lydia E. Pinkham's Vegetable Compound whenever I needed it. When I first used it I was so bad I could hardly walk across the room without crying. I was tired all the time. I think my trouble was coming on me for six months before I realized it. I read of your wonderful medicine in the paper, and my husband bought me a bottle, and after the first few doses I felt better, so kept on taking it until I was well and strong. I take it at times when I feel tired and it helps me. I will always have a good word for your medicine and tell anyone what good it has done me. I recommended it to my neighbor for her girl, who is sixteen years old, and it was just what she needed. She is feeling fine now, and goes to school every day."

## DOCTORS SAY "PETTING" IS CAUSE OF PYORRHEA

Philadelphia — (P) — A new charge against "petting parties" has been brought by Dr. Allan J. Smith, professor of pathology at the University of Pennsylvania.

These occasions he contends, probably are one of the important methods of spreading pyorrhea particularly the type known as "trench mouth," introduced during the war and becoming an increasing cause of infection.

Dr. Smith's statements were based upon research conducted by his associate, Dr. M. T. Barrett, instructor in

oral pathology, at the university. Dr. Barrett said that while before the war bacterial infection caused not more than 3 or 4 per cent of the pyorrheal infections at present at least 25 per cent is due to the germ causing "trench mouth."

A small percentage of pyorrhea also is caused by another type of bacteria, known as streptococcus vincenti, but the majority of it still is caused by a kind of amoeba, he said.

Dr. Smith and Dr. Barrett agreed that pyorrheal conditions of the mouth could be removed through proper treatment.

## WHEEL BURSTS, KILLS WORKMAN

Two Pieces of Steel Strike  
Man on Back of Head at  
Loeber Farm

Special to Post-Crescent  
Forest Junction — Orville Luckow was killed while assisting with hay baling at the Elmer Loefer farm southwest of the village Friday morning by blows on the head and back from pieces flying from a broken wheel on the pressing machine. A two-day pressing operation had been started at the farm in the forenoon and at about 10 o'clock, as the young man was engaged in the process known as "backing wires" on the fly-wheel side of the press, the wheel burst, one of the pieces striking his head, and another, believed to have dealt the fatal blow, striking him in the back. Two physicians were called but were too late to give any assistance. Though the victim regained consciousness, he died in about an hour after the accident.

Mr. Luckow was 20 years old and was the youngest son of Mr. and Mrs. Herman Luckow. Surviving are his parents, one sister, Mrs. Lawrence Ott; and four brothers, Walter, Oscar and Harry, all of Forest Junction, and Arnold of Kaukauna.

The funeral will be held from the home at 1 o'clock Tuesday afternoon.

NEW POWER PLANT MANY DEFECTS  
WILL BE READY TO  
OPERATE BY APR. 1 FOUND IN TWO  
HEALTH CLINICSAutomatic Controlling Device  
Is Feature of Croche  
Rapid Development

Kaukauna—Work on the new power plant being erected by the Green Bay and Mississippi unit company at Croche Rapids, four miles northeast of the city, is rapidly nearing completion. The lock work is all up and the four hydro-electric units are practically completed. The power plant has been leased to the Kaukauna Electrical and Water department for 99 years and will, to a great extent, remove the present shortage of electrical power in the city. In the past few years it has become necessary for the local power plant to purchase a great deal of its power, but with the addition of the new plant only a small amount will have to be bought. It will be possible to develop 2,200 horse power in the new plant and by overloading a possible 700 may be developed. All of this has already been contracted for.

## INSTALL FOUR UNITS

The general contract work is being done by the C. R. Meyers Co. of Oshkosh. The Allis-Chalmers company of Milwaukee manufactured the machinery and at the present time has a crew installing it. The machinery consists of four hydro-cones, each one developing 500 horsepower when running at full speed. These cones are built after the latest approved scientific methods and are highly efficient. All four cones are in line with the dam. Wednesday evening the tail of the coffer dam was blown up and Thursday morning a charge of dynamite blew a hole into the heart of the dam, admitting water into the machinery for the first time. No. 1 unit was set in motion for the first time at 6 o'clock Wednesday evening and since then it has been running steadily in what is called "a driving out process."

Sunday morning it is expected that the unit can be run at full speed and at that time it will be hooked up with the controlling unit at Kaukauna. It is possible another unit will be in operation by that time. So great is the need for the power that as fast as the units are completed each one will be hooked up manually with the unit at Kaukauna to help generate power until all four are completed, then one will be shut down and connected to automatically with the other units (this being repeated until all four units are hooked up together). The plant possibly will be in operation by April 1.

Everything is controlled automatically and the unit at Kaukauna will swing the units to meet the demand for power. Floats will show the depth of the river and will automatically shut off one or more units when the river is low. This way the plant will not use more water than the government allows. Another interesting feature of the plant is the automatic oiling system by which oil is sent to all parts of the machine. Belays have been provided on the bearings so that the machine can be lowered down automatically if the temperature of the bearings is too high. The motors of the units travel at a speed of 90 revolutions per minute when going at full speed. This is slightly slower than the motors in the plant at Kaukauna. Today a rotor and two bridges remained to be placed on the units. The building will be heated electrically, but a steam boiler has been provided in the event of breakdown in the plant. As soon as most of the workmen are gone a tile floor will be laid. When completed it will be possible to leave the building without anyone watching the machines for ten and fifteen hours at a time because of the automatic controlling devices.

TWENTY-FIVES LOSE  
TO LITTLE CHUTE TEAM

Kaukauna—The Twenty-five club lost a 2-1 game to the Shorty's of Little Chute Friday night in the auditorium. The game was one of the best played so far this year and clever floor work by both teams was exhibited throughout the game. The Twenty-five club played the Green Bay Reformatory at Green Bay Wednesday, March 17.

HOLD FUNERAL  
FOR O. BROWNWaupaca Pioneer Is Survived  
by His Widow and Six  
Children

Special to Post-Crescent  
Waupaca—Funeral services for Oliver Brown, Waupaca pioneer, were held Wednesday from the home, Rev. Anthony Jacobs of Stoughton, officiating. Besides his widow, he is survived by a daughter, Mrs. Fred D. Penney, and five sons, Irving, Oscar, Arthur, Albert and Oliver. Relatives from out of the city in attendance were Mr. and Mrs. E. H. Smith of Stevens Point, Mr. and Mrs. A. Penney and Mr. and Mrs. Ed Lundgren of Amherst, Hans Madelund of Antigo, Fred S. Brown of Rochester, Minn., and Mrs. Peter Landby of Sheboygan.

Oliver Brown was born in Milwaukee, June 3, 1852, and moved with his parents in 1862 to Waupaca, where they settled on what is known as the Christian Jensen farm in the town of Farmington. The next spring C. O. Brown wrote his friends in Sweden and met them at New York City. The party made the trip west with ox teams and link pin wagons. This colony established the Swedish settlement and erected the old Swedish church in the town of Farmington. Many hardships were endured during the early days.

During his younger days Oliver Brown worked on the river, having spent seventeen summers on the drives. He also devoted considerable time to hunting large game found in this vicinity and had several narrow escapes from the rush of a wounded bear. He had a record of 45 bears in one season.

In the early seventies he purchased the farm on which he lived thereafter continuously until his death on Sept. 16, 1877. He married Mary Ellen Smith, also a resident of Farmington. The curling club has enjoyed favorable weather the past week, and a number of good games have been played. The results follow: Holst 15, Smith 6, Gallagher 11, Nelson 6, Holby 14, Holst 7, Campbell 15, Gallagher 15, Campbell won the thirteenth hole. Smith 15, Smith 3.

While walking on an icy sidewalk on West Fulton-st. Leo Kostuck fell, fracturing his left ankle. Mr. Kostuck is now confined to his home on Central where he is getting along nicely.  
Waupaca public schools will hold an art exhibition at the high school on the evenings of March 17, 18, 19 and 20. The art collection to be shown will consist of 200 subjects and funds raised by the exhibit will be used to purchase pictures for the local schools. As an added feature, W. Neal of Stevens Point normal school will give an address on art subjects Thursday evening. On Friday evening Mrs. Elizabeth Bronson will talk on art.  
A. C. Galloway is building a number of cottages on Long Lake and has purchased a tract of 27 acres of lake frontage. Long Lake is situated about one mile from Gilbert Lake. The lake frontage boom in Wisconsin is already evident about Waupaca and local real estate men are preparing for an increased business.

Arthur Hewitt who for the past years has been traffic officer on the Waupaca city police force, has tendered his resignation to take effect April 1. Mr. Hewitt has accepted a position with the S. E. Sanders Ford company.

A number of tourists and salesmen have been delayed in the city the past few days on account of the excessive amount of snow on all roads north and west of here. The mild weather on Thursday gave much encouragement to venture into this territory from the south, but freezing weather has again put a stop to motor traffic.

## NEW LONDON PERSONALS

Special to Post-Crescent  
New London—Mrs. Fred Loss has returned from a three week's visit with her mother at Oconto Falls.  
Mary Milton, daughter of Mr. and Mrs. W. E. Milton, submitted to an operation for appendicitis at her home Wednesday evening.  
Miss Myrtle Mann has left for the Denison Art school at Chicago where she has been sent by the Sprinkler Drug company of this city.  
F. T. Avery will move his family to this city from Manawa within the near future.

TWO CANDIDATES FOR  
ALDERMAN IN 5TH WARD

Kaukauna—The first race for office in the forthcoming election has been found in C. W. Worman and Peter G. Dyer have ignited the intentions of running for alderman in the Fifth ward. This is the hottest ward in the city in number of voters. P. Dyer is a candidate for supervisor of that ward. C. W. Wolf will again seek for the office of city clerk.  
It is rumored that John Coppes is considering entering the race for mayor but Mr. Coppes is out of the city at present. So far the only one to definitely announce his intentions of running for mayor is Dr. W. C. Sullivan although it is expected C. E. Baugh will throw his hat into the ring soon.

NEW MOTOR BUS LINE  
BEGINS OPERATIONS

Kaukauna—The American Motor Coach Lines, Inc., formally opened its Green Bay Milwaukee bus service Friday morning. Their first bus from Green Bay passed through here about 6 o'clock on its way to Milwaukee and the first Milwaukee bus reached here about 1 o'clock. Before being able to run their buses it was necessary for the coach line to break a road between Oshkosh and Milwaukee. Mr. Steinmetz, manager of the coach line, said he would have run the plow all the way through to Green Bay if he knew conditions north of Oshkosh were as bad as they are.  
The present schedule provides for three trips in each direction daily and a fourth trip will be made as an Appleton providing traffic warrants it, on the northbound trip. The buses will reach Kaukauna at 12:40 and 4:40 in the afternoon and 10:20 in the morning. The return trip will leave Kaukauna at 8:55 in the morning and 1:55 and 5:55 in the afternoon. Stops at Kaukauna will be made at Niagara and Hotel Kaukauna. Later it is expected to have buses running in each direction every two hours. Forder lines will branch out from the main line and make connections with the through buses.  
Five buses at present are being used on the line, but Mr. Steinmetz expects to have 15 buses operating soon.  
The American Motor Coach Lines, Inc., have operated buses out of Minneapolis and St. Paul for the last eight years. Sixty-three buses are used in the service there.

Count in Friday Afternoon Game

New London—The high school basketball team was eliminated from further competition in the Appleton district tournament Friday afternoon when the Red and White lost to West DePere, 16 to 11. The game was close to the end, New London losing by only two baskets and a free throw.

The local quintet was handicapped at the start. Cooley, regular forward, was unable, on account of illness to take part in the tournament games, and this meant a shift in the lineup. Jilison, star of former years, went along, but was unable to perform. Kische at forward made a brilliant showing, and as he is only a sophomore, he is looked forward to as a Red and White star.

Ladwig at center performed in capable manner and Charlesworth at guard was adjudged by many spectators as being the outstanding individual player of the first two days of the tournament. Dernbach was also going strong, and was a heavy scorer for the Red and White.

New London will lose three stellar players through graduation this year. Ladwig, Charlesworth and Westphal are all seniors, and will make a big hole in the Red and White lineup when they leave it. There are a large number of excellent players left however, a group of sophomores making a good showing by their playing this year.

## "WAGES FOR WIVES" COMEDY OF HOME

Should wives be on a salary like an ordinary housekeeper? Jim Bailey had always controlled the family pay check and was determined to keep on giving Mrs. Bailey just as much as he saw fit—and spending the rest to suit himself with no questions to be asked.

Hughie Logan had never stopped to consider whether or not Luella should have any voice in the management of the family finances.

Chester Bailey hadn't thought about an actual division. He believed that things like that would adjust themselves.

Old Mr. Tevis had nothing to say about the matter. He had opened his own pay envelope only once since his marriage—and the memory of what happened to him on that occasion was lasting.

However, the wives of Jim Bailey and Hughie Logan were led into open rebellion by Nell Bailey right after her marriage to Denny Kester because of the financial question—which was ultimately settled to everyone's satisfaction.

"Wages for Wives," the delightful William Fox picture adapted from the John Golden comedy drama "Chicken-feed," which ran so long and successfully on Broadway, is based on this very question and will be shown at the New Bijou Monday and Tuesday.

Jacqueline Logan and Creighton Hale head the all-star cast, which includes Zasu Pitts, Claude Gillingwater, Margaret Seddon, Margaret Livingston, Earle Foxe, David Butler and Dan Mason.

## WHEN JESSIE LASKY FIRST VIEWED "THE WANDERER"

When Jesse L. Lasky, first vice president of Paramount, in charge of production, first viewed the Raoul Walsh production, "The Wanderer," which comes to the Fischer's Appleton Theatre for a run of 2 days on Monday, he hailed it as a picture which marked a new milestone in the advance of motion-picture ideals and artistry.

He saw this picture as the oldest dramatic theme of adventuring youth and sorrowing age—that of the wandering boy beset by the world's pitfalls, while the mother weeps for his return, fearing for his safety, with a tear in her eye and a crushing weight at her heart.

Mr. Lasky's thoughts and feelings on entering the projection room are of striking interest because of the attitude he forces himself to assume on edge.

"That, ne," he said "going to view a production on which you had placed profound hope and expended considerable money. Naturally you are a most prayerful that it will meet your high expectations."

"But there is a stern side to be considered. I must pass judgment on something that has been created, in the light of cold, logical criticism. I must put aside my own fond hopes and personal interest in the production and view it with the same spirit of challenge that it will receive from the public."

"I entered the projection room with the intention of seeing two pictures, 'The Wanderer,' and another, 'The Wanderer' is shown first."

Dismissing the projector, because I had no wish to see the other production scheduled to be run, I sought out Raoul Walsh. I told him that I had sat in the same room where 'The Ten Commandments,' 'The Covered Wagon' and 'Peter Pan' had first been flashed on the screen, and that I had seen 'The Wanderer.' I thanked him for having filmed the world's inspiration."

"For inspiration is what 'The Wanderer' meant to me and what I believe it will mean to the millions who see it. I am very proud to have had a part in bringing such a picture to the screen."

"The Wanderer," the story of the first Black Sheep, the prodigal son who sought the wine, and women and song, of a big city, only to return to his father's house broken in purse and spirit, features Ernest Torrence, Greta Nissen, William Collier, Jr., Tyrone Power, Wallace Beery and Kathryn Williams in the leading roles. J. T. O'Donohue wrote the screen play from the stage spectacle by Maurice Samuels.

## "MAN ON THE BOX" A CHAPLIN SMASH

Whatever else you may neglect to do, don't miss seeing Syd Chaplin who is starring in 'The Man on the Box' the Warner Bros. Classic of the Screen which opened yesterday at the Elite Theatre that is, if you want to see one of the most distinctive combinations of comedy and melodrama ever devised for the screen. Charles 'Chuck' Reisner directed the production and if anybody can get every bit of comedy out of a story, 'Chuck' is the man. In addition he plays a Russian spy in this perfect picture of Harold Mac Grath's celebrated novel and play.

The remainder of an excellent cast includes David Butler, Alice and Kathleen Calhoun, Theodore Lorch, Helene Costello, E. J. Ratcliffe, Chas. Gerard and Henry Barrows. The adaptation is by Charles A. Logue and Julien Josephson wrote the scenario.

"The Man on the Box" is one of the few pictures you can't afford to miss if you want riotously funny entertainment.

## KANE FILM LAID IN GAY MONACO

Colorful Monte Carlo, the "playground of the world," is the setting for Robert Kane's latest production for First National, "The Reckless Lady," which is booked for showing at the Elite theatre Monday, Tuesday and Wednesday.

Miss Bennett and Miss Moran both scored a tremendous success in

## DIVORCE QUESTION IN MOCK TRIAL AT SCHOOL

Special to Post-Crescent

Hortonville—A mock trial was held at the Hortonville high school Monday afternoon, in which the entire school participated. Mr. Parfit acted as judge, Mr. Morgan as sheriff and Glen Vogel and Elmer Dobberstein as lawyers. The case was "whether Mrs. Blank could be granted a divorce from Mr. Blank on the grounds of cruelty." The plaintiff was Bernice Mills and the defendant, Francis Ridge. The plaintiff won the suit. Students acted as witnesses and jury.

Mr. and Mrs. Edward Roeser and daughter and Mrs. C. Roesler of Dale, visited relatives here Wednesday.

A parent teacher's meeting was held at school district No. 2, Hortonville, Friday evening. A program was given, the chief feature of which was a debate on the question "Resolved that the radio is a better instrument than the victrola." The affirmative side was taken by Marcela Gitter, and Bessie McNutt and the negative side by Arthur Maldevin and Elmer Dobberstein. The decision was in favor of the affirmative. Following the program and business meeting, a pie social was held. The next meeting will be held April 9.

William Lippold cracked several ribs early in the week, when he fell off a load of logs.

The last number of the high school yearbook will be held at the Opera house Friday evening.

The Ots brothers and J. D. Schmidt were business visitors in Detroit this week.

Mr. and Mrs. C. Hammond spent Wednesday at Kaukauna.

Mrs. F. N. Torrey spent Tuesday evening in Appleton.

Miss Marcela Steffen was an Oshkosh visitor Friday.

The children of the Lutheran schools and their teachers enjoyed a six mile sleighride party in the country Tuesday afternoon.

Mrs. O. B. Schulz of Minneapolis is visiting relatives here.

A good crowd attended the card party given by the Senior class of the Hortonville high school at the opera house Friday evening. The first prize at bridge was won by Mrs. F. O. Brunchkist, consolation by Mrs. J. Meyne, first in "500," Alvin Dobberstein, and consolation, W. G. Jones' first in scholastic, Charles Schulz and consolation, J. P. Platten and first in Scholastic Victor Maacha and consolation, Miss Maxine Schaebe.

farm in Navarro county 20 cords of hickory and pecan wood is being seasoned for the fire over which the meat will sizzle. This wood gives the beef a much desired flavor.

From his herd of 2,000, Dr. John H. Dean of Dallas, has selected 80 cows and calves has turned them into a separate pasture where the grass is knee deep. The calves will not be weaned, because the milk is adding to the succulence of the meat. Their mothers are being fed sorghum and cottonseed cake, and by the time the baby beefs are dressed it is expected they will weigh 500 pounds each.

Ten days before the date of the barbecue, April 20, the calves will be shipped to Dallas, slaughtered and placed at once in cold storage. The meat will be cooked in especially constructed pits at Fair park, and an expert staff of barbecue chefs, aided by 10 servers and 80 waiters, will cook and serve the meat.

# DANCER PERFORMS CHARLESTON IN STOCKING COSTUME

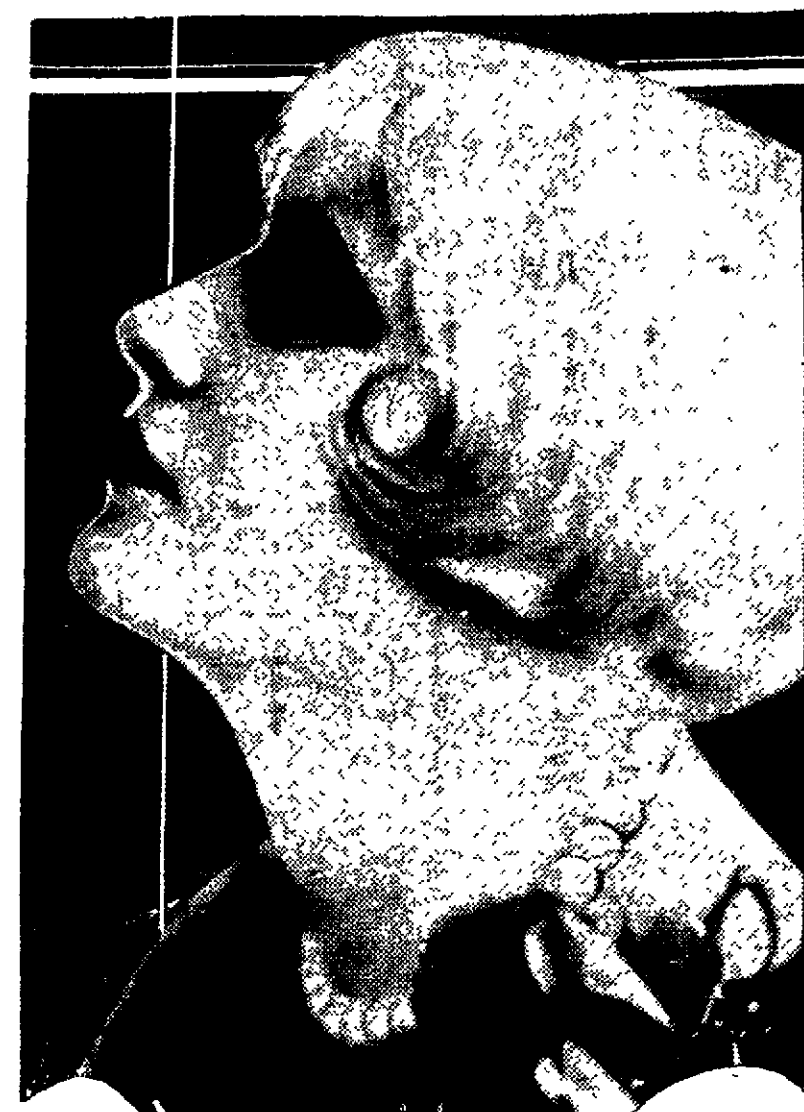

George Fite Waters, American sculptor and pupil of Rodin, works in his Paris studio on a 10-foot statue of Honest Abe Lincoln, to be unveiled birthday in Portland, Me.

St. Gaudens' seated figure of Abraham Lincoln—the statue which the sculptor hoped would be the crowning work of his career—was finished 20 years ago but has been kept in a shed in Chicago ever since because Grant Park, where it was to be placed, was not finished. Now it has been mounted on the Chicago lake front, however, (was) unveiled on Lincoln's birthday.

This is Peewicktoo, wee Eskimo lad who lives 'way up in the northern edges of Canada where the nights are six months long. This photo, showing his winter costume, was taken last summer by a resident of Ottawa, Ont.

Hazel Howell, film actress, won a divorce when she told a Los Angeles judge her husband had torn her clothes off so she couldn't go to a matinee. 'He's a comedian and sometimes he tried to get funny with me,' she complained.

Helen Doty, Dallas Tex. dancer performed the Charleston before a big audience with nothing on but her stockings—but it was perfectly proper as she had 12 pairs made into the costume shown above. The whole costume cost about \$150 and has 11 different shades.

A water spray has been installed at the top of a 30-foot spruce tree at Escanaba, Mich. It has been showing water since Dec. 1 and the tree is now an ice fountain lighted at night by colored lights.

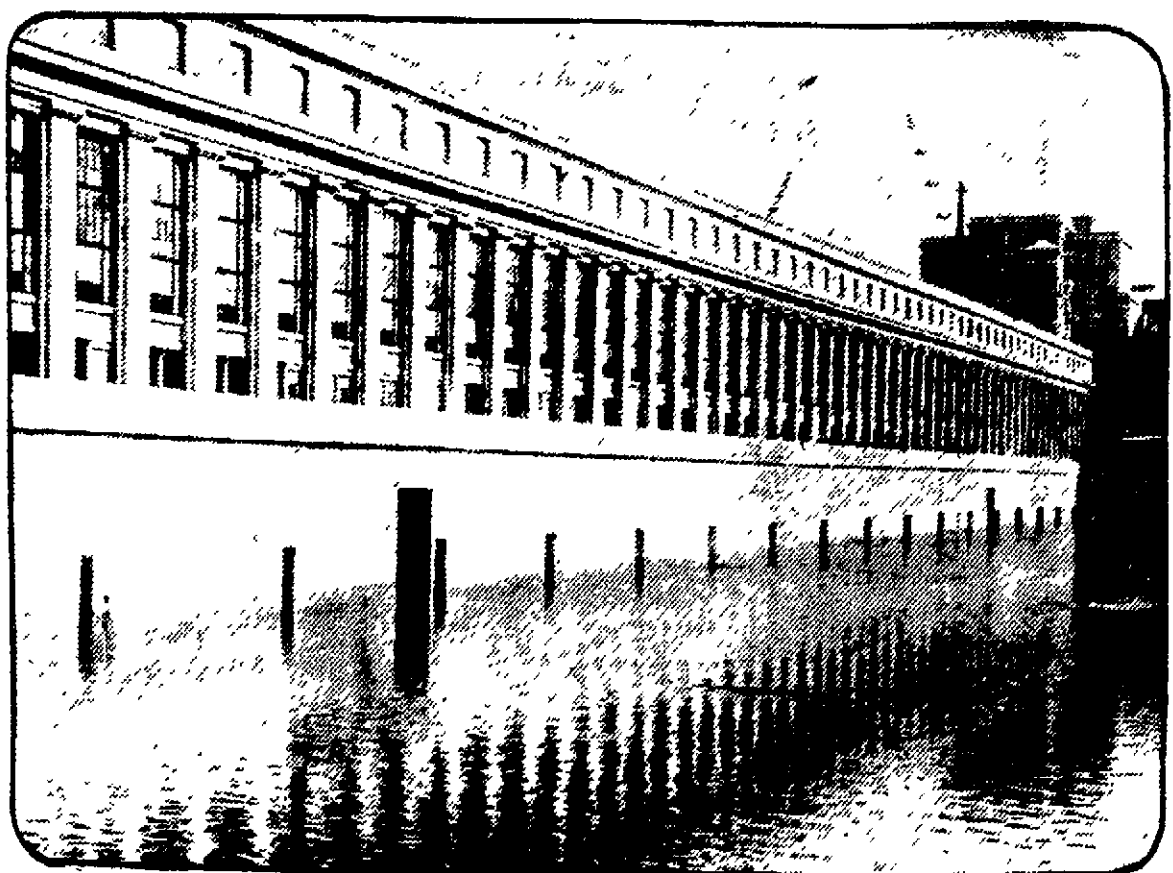

George Garver, a University of Kansas senior, was elected—by the girls in the university—as the handsomest man on the campus. He lives in Kansas City, Mo.

The winter chickadee, otherwise known as the Tom Tit, is said to be one of the shyest birds in America. But Prof. S. S. Dickey of Alliance College, Cambridge Springs, Pa., knows otherwise. He has this one tamed so that it will eat bread crumbs out of the bowl of his pipe.

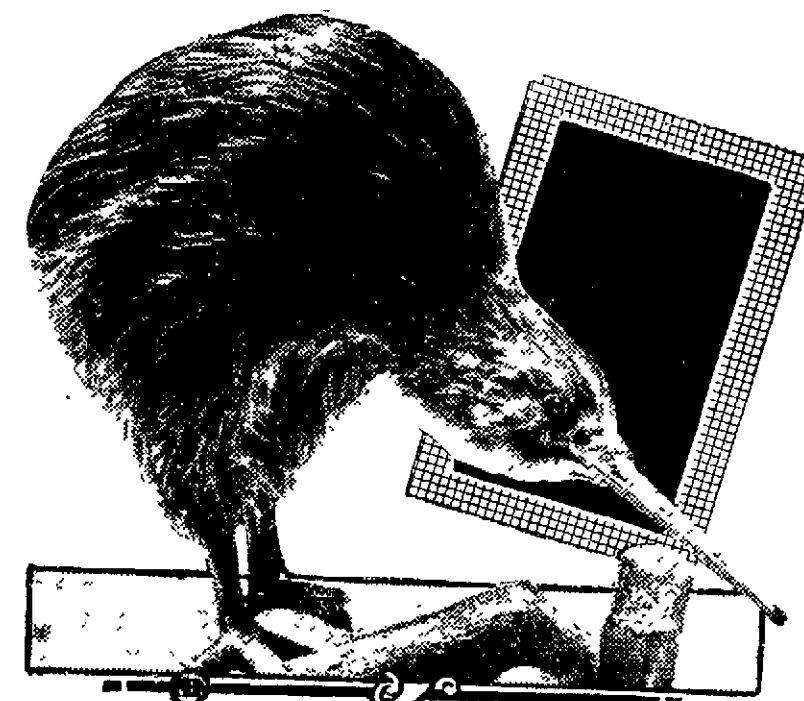

Scene in Bradley Place, Palm Beach, after 12-hour rainfall.

Here is a close up view of the powerhouse at Muscle Shoals, Ala., all ready to develop a tremendous amount of power. This picture and the one at the left were taken by the U. S. Army air service.

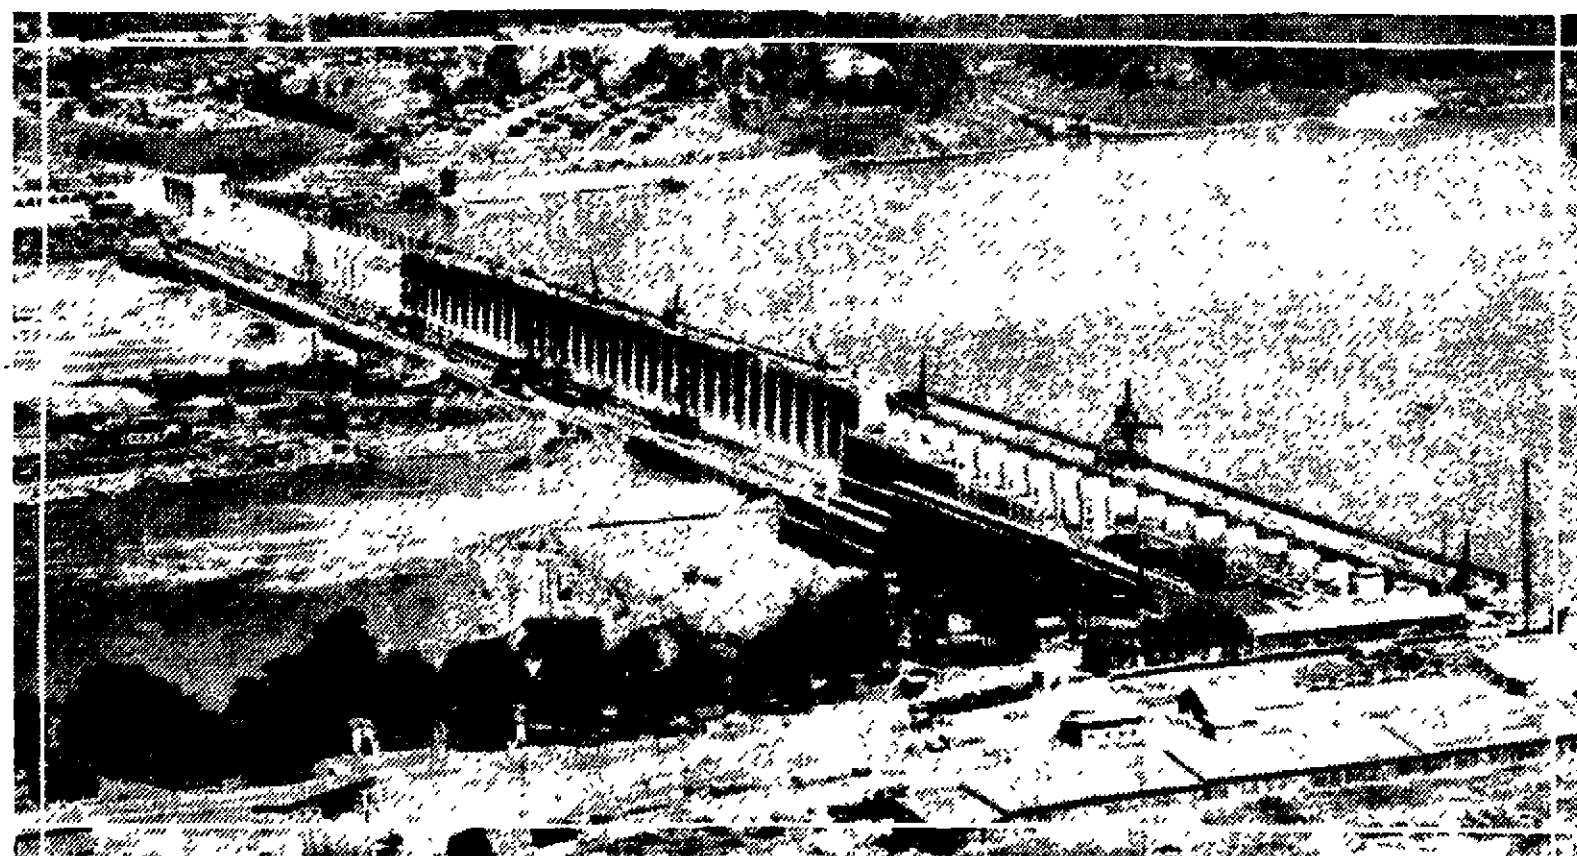

The pair of knees at the left centerbelong to the girl at the right. They explain why a girl with this face won a recent Cleveland beauty contest. The knees at the top and at the bottom belong to other girls with beautiful faces, but imperfect knees. The girl at the right is Miss Audrey Clapp of Cleveland.

This is the kiwi bird of New Zealand, a bird with hair-like feathers and no wings whatever. Non-flying members of the army at service are unkindly called 'kiwis' by their flying brethren.

They're beginning early this pair—young Tim Holt, son of Jack Holt, movie star, and Suzanne Vidor, daughter of Florence Vidor, actress. Their parents' homes adjoin in Hollywood, and Tim is telling Suzanne how he appeared with his father in an recent picture. But Suzanne isn't thrilled, because she intends to be a dancer.

Here is a remarkable airplane view of the famous power plant at Muscle Shoals, Ala., showing the great Wilson dam spanning the river. The question of disposal of the power generated by this project is before Congress, with rival factions calling for government operation and for lease to private concerns.

# LYNCH SELLS RIGHT-OF-WAY THROUGH HIS FARM

## REMOVES LAST OBSTACLE TO PAVING PLAN

Extension of S. Cherry-st to Foster-st to Be Started Soon

Completion of the paving project between Foster-st and the Memorial bridge by July 1 was predicted by Mayor John Goodland, Jr. on receipt of information that Winnebago-co has acquired a right-of-way through the John Lynch farm connecting Foster-st with the south end of S. Cherry-st.

Papers for the transaction are now being drawn up, Mayor Goodland was informed Friday by Ernest Raddatz, chairman of the Winnebago-co highway committee. The price was not announced but it is understood that the county paid somewhat more than was originally offered Mr. Lynch.

**START AT ONCE**  
When informed by Mayor Goodland of the completion of the deal, O. C. Hollman, Green Bay, division engineer of the Wisconsin state highway commission, announced he would award the contract for the work at the earliest moment. Once the work is started, it should not require more than six or eight weeks to complete it, according to Mayor Goodland. Benefits and damages have already been assessed against property owners along S. Cherry-st.

The right of way acquired by Winnebago-co is from 500 to 600 feet long and 100 feet wide. The remainder of the street to Memorial bridge which will be paved by the city, is 2,841.5 feet.

The entire stretch will be paved with two 18-foot roadways with a boulevard in the middle, and will be one of the most beautiful approaches to the city. The sharp turn at the south-west end of Memorial bridge will be straightened out, the highway to approach the bridge at a gradual angle instead of a sharp angle as is now the case.

**GET STATE AID**  
If the state highway commission approves the proposed routing of highway 15 from Foster-st straight north to Cherry-st, the city will receive state aid in paving S. Cherry-st. Announcement of the highway commission's final decision on the routing is expected shortly.

As the road to be paved by Winnebago-co is short, it is possible that the contract for the entire project will be given to one firm, according to Mr. Raddatz.

Completion of the transaction between Mr. Lynch and Winnebago-co marks the close of negotiations between the two principals lasting over half a year, and removes the last impediment in the way of connecting Cherry-st with Foster-st in a direct line. When negotiations were opened about the middle of last summer, Mr. Lynch refused to sell a right-of-way through his land at the price offered by Winnebago-co. The county threatened to condemn enough land for a right of way but was able to reach an agreement with Mr. Lynch before such action was necessary.

## DRINKING OF BEER ON INCREASE IN MEXICO

Mexico City.—(AP)—Tax reports indicate increased beer drinking in Mexico.

Excise paid almost 2,500,000 pesos in federal income taxes for 1925 according to recently announced figures. This exceeds former records.

All Mexican breweries are conducting elaborate advertising campaigns, some urge the thirsty to substitute malt for hard liquors in order to prevent the possibility of prohibition.

"Drink beer and thereby nip prohibition in the bud," is one of the slogans.

## EXPECT 1,000 INCOME TAX BLANKS SATURDAY

Nearly 1,000 state income tax blanks were expected to be returned to the office of Leo J. Toonen, county assessor of incomes, Saturday. Only two days are left to submit the reports. About 500 blanks were received Thursday and 700 more arrived Friday.

## MORE ROADS ARE OPENED TO CARS

Traffic Is Possible to Green Bay, Oshkosh and Brillion

Roads leading out of Appleton are rapidly being cleared for traffic in spite of the recent snow, according to the reports of bus drivers and those who have ventured to travel by automobile. Cuts are now traveling to Brillion, Green Bay, Winnebago and Allouez without great difficulty. It was said, for where snow plows have not been used on the roads, the trucks have plowed a track sufficient for easy travel.

Highways to New London and Seymour, however, remain closed, but it was expected that an attempt will be made next week to open these roads.

## U. S. MARSHAL PADLOCKS TWO APPLETON SALOONS

W. G. Garrett of Milwaukee, United States marshal, visited Appleton Saturday morning just long enough to padlock two saloons operated respectively by William Elsch, 1501 N. Richmond-st, and Oscar Gmeiner, 116 S. Walnut-st. The saloons were ordered padlocked for a year by Judge F. A. Geiger in federal court in Milwaukee Wednesday as the result of raids by federal prohibition enforcement officers last December. Only the barrooms were padlocked by Marshal Garrett. Elsch and Gmeiner live in the buildings in which the saloons are located. The latter also conducts an adjoining hotel.

## SET MEYER LIQUOR TRIAL FOR MONDAY

The trial of Mike Meyer, town of Seymour soft drink parlor proprietor, charged with having intoxicating liquor in his possession is scheduled for Monday morning in municipal court. The trial was set for Feb. 23 when he was arraigned earlier in the month, but the illness of his wife, an important witness for the defense, caused it to be postponed. Meyer, who was arrested on the complaint of Edward T. Sullivan, federal prohibition officer contends the liquor was not found on his property. He is free on \$500 bond.

## ON TRAIN ONLY ONCE BUT VISITS COUNTRY

Indianapolis.—(AP)—Charles Stockwell Ricker, six years old, has been in most of the states in the Union, but has ridden on a train only once. Charles is the son of Chester Ricker, widely known automotive engineer, and an official at motor racing events, including the annual Indianapolis Motor Speedway classic. He had been to New York City, all over the south, and to the far west, but always he had gone in his father's motor car. Recently his father took him to Denver by train. Charles enjoyed the train ride, but still prefers automobiles.

## FIRE STARTS UNDER INTERLAKE DIGESTOR

A fire in the blow pit under one of the digesters of the Interlake Pulp and Paper Co. was quickly extinguished by members of the fire department who responded to an alarm sent in at 7:05 Friday evening. The fire was caused by spontaneous combustion, it is believed. Very little damage was done.

Rasmussen, owner of the Rasmussen fruit farms near Oshkosh, will give a stereoscopic lecture on fruit raising and other horticultural subjects at the monthly meeting of the Woodlawn school parent-teachers association Tuesday evening at the school in Grand Chute. Children and parents have been invited to attend the gathering. Mr. Rasmussen is one of the best known fruit growers in central Wisconsin. He was instrumental in organizing a spray ring among Outagamie-co fruit growers last fall.

## TEACHERS REPORT ON TESTS IN WRITING

Reports of an experiment in writing in the third and fourth grades of the grammar schools of Appleton will be discussed at a meeting of the writing committee of teachers of those grades Monday afternoon with Ben J. Rohan, superintendent of schools. An effort has been made to improve the penmanship of the children by using the same simple paragraph for "copy" and thus practically eliminate the element of thought about the meaning of the text, and give an opportunity to the student to concentrate his efforts on the mechanics of the exercise. Members of the committee are Miss Olga Heller, teacher in the third grade of the First ward school, Miss Emma Temple teacher in the third grade of the Washington school, and Miss Aurelia Whittinger, teacher in the fourth grade of the Fourth ward school.

## WISCONSIN WEATHER

Fair tonight, followed by increasing cloudiness Sunday; rising temperature.

**WEATHER CONDITIONS**  
An extensive high pressure area, the dominating factor on the weather map this morning, overlies the entire central portion of the country. It is attended by cold weather, freezing temperatures being reported nearly to the Gulf Coast and zero to the extreme north. This will cause generally fair weather to continue in this section tonight, with a slight moderation in temperature. The pressure is not so high and the weather somewhat unsettled over the far northwest which may extend to this section by Sunday as the high moves past, with increasing cloudiness and rising temperature.

## CALL JURY IN CIRCUIT COURT

## DAYLIGHT SAVING TIME CONSIDERED IN NEENAH MILLS

Neenah—Adoption of daylight saving time is being discussed here. The movement has been started among the employees of the mills and factories in an effort of securing an extra hour of day light. The project is to be taken to the next meeting of the council for action.

## NEENAH FIGHTS FOND DU LAC IN TOURNNEY FINALS

Christoph's Battling Squad Whips Oshkosh, 22 to 20, in Fast Game

Neenah—Neenah high school basketball team, in its second game of the sectional tournament at Oshkosh Friday evening, defeated Oshkosh by a score of 22 to 20. Neenah is to play in the finals Saturday night with Fond du Lac which defeated Berlin 20 to 3.

A long shot by Hollenbeck, Neenah's star guard, during the last few seconds of play, when the score was tied 20 and 20, registered the necessary two points to put the local team in the lead.

The game started with a free throw by Pugh on a foul by Schneller. The Oshkosh forward soon registered two more rings before Neenah found the net. Ehrigott found the opening for two baskets and Stip for his only one in the entire game, but he played three points with free throws during the first quarter and one in the second. The first half ended with Neenah in a 14 and 11 lead. Pugh registered four points by baskets in every quarter except the last, making 14 points for his team while Ehrigott made 10 for the Neenah five.

Five baskets were made by Stip but were not counted, the referee ruling that Stip was carrying the ball.

## CHAPTER IX

The face of the woman hardened at the sound of the man's voice. She stood looking at Barbara, her eyes sweeping over the details of Barbara's costume, straight from Fifth avenue. Then she glanced down at her own lavender wrapper and clutched the wet clothing in her arms still more tightly. In a moment she was gone and the sewing room door banged in Barbara's face.

The sound of quarreling came from behind the door.

Barbara stood spellbound, while the voices grew louder and the woman in the room began to cry loudly.

Barbara started down the steps holily. She reached the hall and ran through it to the dining room. Then she pushed open the kitchen door. The room was empty. Barbara ran to the kitchen window.

Mrs. Crumplett was emptying a garbage pail in a tall can near the back door. She straightened slowly and turned toward the steps.

Coming in with the empty pail, she caught sight of Barbara, and the ready frown visited her face again. "What's the matter now?" she asked, setting the pail down on the greasy-stand floor beneath the sink.

"Who is Mrs. Biggs?" Barbara spoke as quietly as she could.

Mrs. Crumplett laughed. "That's easy. Ask me another one. She's the wife of Mr. Biggs, of course."

Barbara's fingers twisted together. "Who is Mr. Biggs?" she asked, through tight lips.

The landlady was washing her hands under the faucet. "He's a saxophone player in the ten-twenty-fifty theater orchestra down town. And a bad egg he is. Knocks her around when he's drunk and calls her names when he's sober."

"They make a hell of a noise sometimes and my other roomers complain. But she seems to like it. Anyhow, she stays with him, and hangs round his neck all the time. Sometimes I don't blame him for swatting her. She makes me sick."

"They're slow with rent, too," Mrs. Crumplett winced her hand on a slippery towel.

Barbara stood waiting, her eyes fixed on Mrs. Crumplett's face. But luckily the woman did not see the expression on her face. She was employed in cleaning her fingernails with a hairpin.

"It beats me," she ruminated, biting off a hangnail, "how women will take that sort of treatment from a man. I say they deserve it if they're that kind of worms."

"This Mrs. Biggs you was asking about actually likes the way that musician fellow treats her. Says her first husband was an awful swell. Fored her stiff. Said he wouldn't even let her chew gum around the house, and wanted to pick out all her clothes, so's to be sure they were tailors' work. 'Told her how short she could wear her skirts, too.'"

Mrs. Crumplett put the hairpin back in her frowzy hair, and looked at Barbara.

"You like your room?" she asked, more amicably. "Do those bums make a noise and bother you? Because if they do, I'll sure throw 'em out. If they were up with the rent, it would be different. They haven't even any baggage worth holding. Good riddance. I'd say."

She saw that Barbara was interested, and waxed more discursive. "It's a fine lot of trouble I've had with 'em anyhow. When they first come here, she wasn't divorced from the first chap. Walked into a respectable woman's house big's you please and said they was man and wife. But I soon found out different and made 'em take separate rooms. Only she didn't move her clothes and things out of his room, even then."

Mrs. Crumplett shrugged an elephantine shrug. "Anyhow, I'd done my best. I was in the clear."

Barbara leaned against the wall Mrs. Crumplett pushed chair against the cupboard and clambered upon it, reaching for a can on the topmost shelf.

"Come here three months ago. She told me her kid had just die and I thought it was Biggs' child. But seems it was the other husband's. She known Biggs before she was married, though, and he came back to town just in time, when she was bored sick the swell. Her husband had a good business, but she couldn't stand his airs."

"Ouch!" Mrs. Crumplett had let the can fall on her big toe. She stood on one foot, stork-wise, a moment, almost dancing with the pain.

"Well, you might help a body down," she snapped at Barbara, who was still leaning against the wall, blink-eyed.

Barbara started and offered her a hand. Then she fled from the woman's groans and imprecations, through the dining room with its dusty table, through the bleak hall, up the stairs and into her own room.

Next door, the sounds of a violent brawl rose. Barbara could hear a man's voice, loud, bullying, flinging out epithets which the walls fortunately muffled past recognition. The woman's voice was lifted in sharp treble exclamations, with now and then a sob.

Barbara pressed her hands to her ears and looked helplessly around her. Her bags still stood by the bed, and the blankets still hung over the headboard where she had pulled them. Her comb and brush lay on a piece of paper on top of the dresser.

Barbara seized the grips and set them on the bed. She pulled them open and began to throw her things in. The sounds in the next room sank finally to silence.

Seeing the dry water pitcher, Barbara grasped its handle and started for the bathroom. She came back with it full of cold water and was about to pour it into the wash basin, when her eyes fell on a grimy ring upon the porcelain. She set the pitcher down heavily.

The single towel on the rack at the back of the stand had the distinct prints of five black fingers upon

it. The soap in the little china dish had dissolved to the stage of jelly.

Barbara looked at her hands and ran to the mirror to see her face. It was pale as a haggard.

She returned to the bathroom, but the ring on the porcelain of wash-bowl and tub was blacker than that in her own basin.

She went back to her room and opened her traveling bag. With cold cream and cotton, she made the best toilet she could. She applied powder and rouge and got her hat from the closet.

She looked at her watch. It was eleven o'clock. There would be no more busses for Appleton until twelve.

Barbara paced the floor of the room. Next door, the quarreling began again. Violeta was crying hysterically now, so that the whole house must hear her. The man's voice was a growl. He was evidently trying to

shame her into quiet. Barbara said by the fireplace, staring at the tomato can and the burnt matches in its depths. Overhead the lady in the pink ruffles simpered at her. And the shiny grapes and fat bananas in the print on the wall grew shinier and fatter. The wind coming in at the window, whipped the blind savagely.

The jangling voices in the next room did not quiet. At last Barbara jumped up and ran out of the room. She went down the steps and out the front door.

For twenty minutes she walked up and down the street, so rapidly that her breath was coming fast and her cheeks were red.

Barbara looked at her watch. Just twenty minutes to wait. She turned in at Mrs. Crumplett's door and was starting up the steps when the landlady appeared in the hall below.

"Hey, you're not leaving?" she shouted.

"Yes," said Barbara, shortly.

"Is THAT so?" bellowed the woman. "And how about giving me notice? Here I've turned down three offers for that room this very morning, and one of them a society gent from town. Don't you think you can get away with anything like that? You'll have to pay me a week's rent at least."

Barbara turned around on the step. "I did not tell you how long I meant to stay," Mrs. Crumplett, she said. "And I shall not pay you a week's rent."

"You'll pay me a week's rent or leave your baggage," shouted the woman.

Barbara's words came out crisply. "I'll pay you one night's rent, and you'll hold your tongue, or I'll have your place raided."

She turned and ran up the steps. She snatched her bags from the bed and ran down the steps again. Mrs. Crumplett was shaking her fist in the air as Barbara came on the front door.

The door slammed, cutting off the

trade and Barbara was on the porch again.

She ran down the walk, looking neither to right nor left. As she reached the gate, a shadow fell across the ground in front of her.

Barbara raised her head. "Bruce!" she said.

Her bags dropped to the ground. He had her hands. "How—" she began, but he stopped her.

"McDermott told me you might be here. I tried yesterday to get you at the hotel, just after the paper came out with the story of your return."

"He told me some other things, too, about Lydia and Vale Acres. But it wouldn't have mattered. I'd have found you, anyhow."

He stopped, and the dull red blood began to mount in his face. "But you haven't heard—"

This time it was Barbara who interrupted. "Yes, Violeta lives in there," she pointed with a little shudder toward the house, and suddenly leaned against him, weakly.

"Why on earth did you come to this horrible place, Barbara dear?"

"Well," said Barbara, very low,

"I thought it would be home. I'm so tired of being a stray."

"You knew better," said Bruce.

"You knew it wouldn't be home. You knew that no place would be home, unless we found it together." His arms were around her.

Barbara's head drooped. The sunlight caught on a lock of hair that stood straight up on the crown of Bruce's head, making him look like a particularly childish Billiken.

## VILLAGE SEEKS TO CHECK SUIT OF GOVERNMENT

Little Chute Attempts to Re-  
strain Federal Action  
Against It

A suit to restrain the government of the United States from bringing criminal action against the village of Little Chute for failure to raise the level of a drawbridge over a canal in the village will be started before Judge Gevelin in Federal court in the near future according to Thomas H. Ryan, attorney for the village. Outgumme-co will be made a party to the action in an attempt to deter the government from raising the bridge. The village maintains that either the government or the county is responsible.

Records show that there was a highway to the river at the place where the canal now is before the canal was dug in 1873. The highway was a public thoroughfare and right of way and when the canal was dug it severed the public artery. The village contends. The Fox River Improvement Co. dug the canal and it later sold its rights to the Green Bay Mississippi Canal Co. which in turn transferred the property to the government. As the government succeeded in the Fox River Improvement Co. and assumed its liabilities the government is responsible for the canal and for the drawbridge which was built to replace that part of the highway occupied by the canal. The village holds. When a canal is dug the responsible party must furnish a road a highway as was there before the village bridge.

In 1921, the county added its road to its trunk highway system. Village authorities believe that if the government proves it is not liable the county may be held because of the bridge as part of its trunk highway system.

A hearing on raising the bridge was held before government engineers in 1924 and notice was served on the village to raise it within three months but the village officials claimed they were not liable for the work. Last fall the matter came before the federal court and three witnesses, George Williamson and Mrs. Clara Schumacher of Combined Locks, and John Tinson of Little Chute testified for Little Chute. All are over 80 years of age and they told about the digging of the canal shortly after Mr. Williamson signed affidavits he died.

Last fall the United States District Attorney acting under orders from the Attorney General of the United States instituted criminal proceedings against Little Chute in the federal court at Milwaukee to force the village to comply with the government's order. The village now seeks an order to restrain the government from bringing the criminal action until liability is determined.

## CHURCH PLANS SERIES OF LENTEN SERVICES

A series of lenten services sponsored by the First Congregational church and conducted by the Rev. L. Wendell Piffel, pastor of the Congregational church of Sioux Falls, S. D., will be started Tuesday afternoon with a meeting at Piffel's Appleton theater. Three meetings will be held every day of the week and the series will conclude with the regular church services Sunday, March 21, at the congregational church. The first afternoon sessions will be held in the theater at noon after which there will be meetings at the church beginning at 4 o'clock. The evening gatherings will be held at the church at 7:30.

Mr. Piffel spoke here several months ago at a Kiwanis club luncheon. His topic at that time was The Golden Rule in Business.

## ISSUE INVITATIONS FOR FACULTY PARTY

Invitations for the annual Hi-Y faculty party to be held March 17 at the Y. M. C. A. have been sent to 117 school teachers. Plans were made for the party last fall, but the schedule at the Y. M. C. A. interfered with the first date, and it was postponed until spring. John Galbin and Alex. Manier are in charge of arrangements.

## Mrs. Coolidge Knows How To Economize--Yet She's Best-Dressed First Lady Ever Seen

BY ALLENE SUMNER  
NEA Service Writer

Washington—(AP)—Grace Goodhue Coolidge, first lady of the land for nearly three years, is known to social Washington as the best dressed woman who has ever lived the White House.

But this doesn't mean Mrs. Coolidge has deserted the cause of Coolidge economy. No president's wife within memory spent as little on her wardrobe as does Mrs. Coolidge. She has solved woman's hardest problem—how to spend little but be well dressed. And she makes no bones about it. She even chuckles a bit over the consternation she sometimes sees on the faces of high hat guests when they see her in a made-over gown at a White House reception.

**DISLIKES FORMALITY**  
Mrs. Coolidge dislikes formal dresses of stiff brocades and glittering stuffs. Hundreds of pictures of her have been taken—but rarely indeed is the picture showing her in décolleté.

"The president doesn't like it," says one picture agency.

Besides the expense. This is an economical administration. Although Mrs. Coolidge is rarely seen without a string of beads of some sort, she does not wear expensive jewels. In fact, it is said that she owns no diamonds, but her simple little engagement ring. But she loves earrings.

She is as conservative in dress as her husband is in politics. No matter what the mode she wears skirts that reach nearly to her ankles. She seldom pays more than \$2 for a pair of hose, although she buys large quantities of them. She owns here in "hand-dyed" shades to match various costumes.

**LOOKS FOR BARGAINS**  
When she does her own shopping in one of Washington's specialty shops she is not above picking up a bargain—a flower from the box of those slightly soiled, a sample comb or a string of beads.

An incident of a recent "glimmering White House reception" is illuminating. The cream of Washington's society was in the line that moved past her. As the crowd and jostled women walked up to take her hand a woman less modestly dressed came up. She was a society tattler—a woman who has made her living for years by attending Washington's functions and writing articles about them. Her eyes were busy as she

Mrs. Calvin Coolidge

approached Mrs. Coolidge trying to note every detail of the first lady's costume. Mrs. Coolidge noticed it. Her eyes sparkled. She leaned forward and whispered: "You can get the description from some old clippings, Miss—. It's an old one again. Just made over a little bit."

I know this is a true anecdote, for I heard it myself. I was next in line.

### ALWAYS GENUINE

White House attaches who have attended countless receptions in many administrations marvel at Mrs. Coolidge's poise. Always she manages to inject real warmth and sincerity into the hundreds of greetings she must give to strangers.

And she seems to enjoy it, too. She almost grins when she comes down the marble stairway into the Blue Room while the Marine band plays "Hail to the Chief." Some of her intimate friends say she has said:

"I rarely go through this act but what I am thinking of the days when my first promenade consisted of going to market in Northampton with a basket on my arm, while I tried to decide whether to buy steaks or chops for supper."

Another woman who knew her in the days before she entered the White House, says:

"She has refused to be made miserable by the demands put upon her."

is president's wife. She giggles and chatters as much as in the days when we lived together at the hotel and borrowed one another's morning board."

Everyone in Washington, in fact, has a good word to say for Mrs. Coolidge. It has been many years since a first lady was as well liked as the present one.

The young woman who comes to the White House to dress her hair is one of her boosters.

"I was scared to death the first time I was called in," she says. "I kept thinking, 'what if I get water down the back of her neck?' But honestly, I'm not afraid of it at all now. In fact, I did spill some water on her once, and she only laughed and said, 'Do I get a bath, too?'"

### THE FUNNY PRESENTS

A White House attaché says: "She gets a big laugh out of the funny letters people write her and

## CAN'T CATCH PICKEREL AND PIKE UNTIL MAY 1

Fishermen of Wisconsin must curb their desire to catch pike and pickerel in state waters until May 1, according to an announcement by Ira G. Smith, state conservation warden in this territory. The season closed this week until May 1. Penalties provided for in the very stringent law will be rigidly enforced this year if violations of the rules are discovered and the violators apprehended, it was said.

It was pointed out by the warden that the pike and pickerel closed season this year has not come too soon for the fish are none too abundant in local waters. The fishing has been carried on too heavily in other years until the number which are taken now is alarmingly small, it was said.

The law states that all pike or pickerel which are caught in nets must be returned to the water. If this is not done it will result in arrest and severe prosecution. A very strict watch will be kept of all fishermen this year and all are warned of the necessity for caution in observing the law.

## Valuable Years of Experience As Morticians—

Our many years of conscientious experience have naturally developed our understanding of this profession's requirements to a higher than ordinary degree of efficiency. And a higher than ordinary degree of service is given as a result.

This becomes very necessary when the need occurs—to insure the proper care and attention desired, the correct handling of each detail, and entire satisfaction in all of the arrangements. All of that is an assured certainty when Brett Schneider's services are chosen.

IT IS inevitable that every motor car manufacturer will follow Jewett's lead and some day build a truly "New-Day" motor car.

Since Jewett's epochal achievement the public is clamoring for "New Day" cars—for new types of motor cars—and so we find a hint of the "New-Day" here and a suggestion of it there—but only in The New-Day Jewett Six can you find a truly New-Day Car.

There is only one way to build a truly new day car. That's to design it from the ground up to meet and master the certain specific needs and conditions that this new day of congested traffic has brought.

This is what Jewett did. This is what they all must do. Jewett sensed the coming of this new day long ago—and Jewett has been designing and building and testing its New-Day Jewett Six for years!

You can't turn time back. The "New-Day" is here—and here to stay. One by one they're seeing the light of this new day—but only The New-Day Jewett Six was ready and waiting when that day dawned.

Drive this New-Day car soon—it's as different from ordinary cars as night is from day. And it's the only car of its kind in the world!

## PUT FRIENDLY TOUCH IN YOUR FORM LETTERS

Appleton Woman Equipped  
to Give High Class Letter  
Service

Putting a personal or friendly touch into hundreds of form or circular letters is a task which requires much time and expenditure in any business as it requires that the name of the person to whom the letter is sent shall be mentioned in the salutation instead of the conventional "Dear Sir." But mentioning one's name at the beginning of a letter makes that person feel as if he or she rated a little higher in the estimation of the firm sending the letter rather than being one of "dear sirs" or "dear madams" with which the concern does business. This idea of the personal touch, of making the person receiving the letter feel like he is being addressed to something he is more apt to bring it larger orders.

But of course the personal method of salutation in a business letter takes a great deal more time and some merchants feel they cannot spend the time and money to bother with it. But for businessmen of Appleton and vicinity there is a simple way out of this difficulty. Why not take the circular letters to one who is experienced in writing them, addressing them and preparing them for mailing.

Miss Laura Fischer, public stenographer, who has her office in Hotel Appleton makes a specialty of writing huge quantities of circular letters for business concerns and also adds the much needed personal element to these letters by inserting the name of the person in the salutation. Miss Fischer has the equipment and help in her office to perform this letter service in much less time than it could be done at any local business concern.

Miss Fischer is prepared to turn out one letter or 1,000 equally well and with the same degree of efficiency. Modern multigraph and typesetting equipment assure the best in the quality of work done at her office.

Everything in the process of circular letter writing is done at Miss Fischer's office, including the writing of the copy itself, writing in the names and addresses of the recipients, addressing the letters and putting them in the mail. Neatness and accuracy is emphasized in the extreme.

Not only in business form letters and announcements, but also in the writing of social correspondence such as letters from secretaries of fraternal organizations can the public stenographer play an important role in saving time and money. A lodge secretary is usually too busy with his own private business to efficiently write the hundreds of letters and announcements required from him.

## STEEL BUSINESS IS PICKING UP

Prices Steadier and Steel Mills and Builders Speed Up Operations

Cleveland, Ohio—Iron Trade Review this week says:

Better business is developing in more quarters of the iron and steel market. Some quickening of new buying first apparent ten days or two weeks ago has made further progress the past week in automotive, building, railroad equipment, oil, gas and certain other fields. While the spirit of conservatism in providing beyond needs immediately in sight continues marked among buyers, the general prospects show up more favorably as the second quarter of the year comes nearer. More stability of prices also is a helpful factor.

Reflecting the broader demand, steelworks and mill operations, already on a high plane, again have

## Life Insurance Growing As Investment Factor

Babson Park, Florida — Roger W. Babson, the famous statistician, today continues his "Family Investment Talks," discussing Life Insurance. As Mr. Babson has no insurance of any kind to sell and does not own a share of stock or have any other connection with any insurance company, his words should bear much weight. His complete state is as follows:

**INSURANCE USES MANY**  
"Next to the preachers, doctors and school teachers, probably no persons do so much real good—as honest and competent insurance salesmen. They provide for old age, relieve suffering, and worry, take care of widows and orphans, educate children, support the disabled and do a host of other good things. Were I a young man and for any reason could not be in the work I now am in, I would sell life insurance. It is almost the one thing that I would feel justified in forcing on to all whom I met, knowing that some day they would thank me. Hence I must take this opportunity of advising all to take out—not a Life Investment Policy or a Life Gambling Policy, but a Life Insurance Policy—for every man and woman and child should be insured."

"When I was a boy, the only life insurance sold was the whole life policy, payable in cash at death; but soon came the Pure Endowment Policy and now we have Limited Payment Policy, Single Premium Policies, Combined Life and Endowment Policies, Joint Family Policies, Educational Fund Policies, Business Insurance Policies, Group Insurance Policies, Modified Life and Term Policies, Monthly Income Policies, Policies with Accidental Death and Disability Benefits, and Intermediate Policies. All of this means that placing insurance has now become a profession and a business man should go to an experienced and honest man who will analyze his needs. The man on a salary may best take out a twenty payment life; while the stock exchange gambler should take a single premium policy. Men in humble circumstances, who desire only protection, may take a Monthly Income Policy to protect the wife and children. Payment Policy to insure the children an education—while a yet different form is advisable to take care of installment purchases, the mortgage on the home and automobile, or to provide against accident. Men of means—on the other hand—desire business insurance, inheritance tax insurance, bequest or payroll insurance—all kinds have their uses and all purposes are worthy—but what kind is best for each person is a question for expert knowledge."

**BENEFITS HAVE GROWN**  
"No conservative insurance man will place all his earnings into life insurance which shows that even the insurance agent himself does not consider it the best investment at all times. Even Life Insurance men like the rest of us—diversify their

been pushed ahead a few steps. The Chicago district has added capacity to bring it up to 92 per cent. With 29 out of 23 blast furnaces in action, the prospects are the Gary works this month may break its high record for tonnage established March 1925. More mill and steelmaking units have gone in at Pittsburg and in the East. Steel ingot production in February fell 1 per cent below January but reached the highest daily rate of any February in history. For the first two months of the year, ingot production is ahead of 1925 by 1.9 per cent. Output in February was at the annual rate of 49,180,000 tons which represented 87.82 per cent of the theoretical maximum and 98 per cent of the highest mark for any single month on record.

Locomotive buying which has been singularly lacking has come to the front in the railroad equipment market. New orders total about 175. The Pennsylvania is maturing a program to buy 200 locomotives. Another important week in railway cars has added 5,000 to the year's total.

Building work is moving ahead briskly with a large volume well spread out in all districts. The week's awards totaling 55,333 tons, covering 60 projects, again were the largest this year and were equalled or approached only six times last year.

Greater oil field activity is evidenced by the placing of 30,000 tons of additional pipe lines by the Standard Oil Co. of New Jersey and the Humble Oil & Refining Co. and by the new demands for storage tanks.

Offerings of foreign pig iron at low prices have forced eastern makers to adjust their quotations accordingly. The Ford road, the Detroit, Toledo & Ironton, has placed another order for steel rails in Belgium which is reported to be about 10,000 tons.

Keen competition in ferromanganese between domestic and foreign makers has brought a reduction by the former of \$15 a ton to \$100, seaboard.

The fourth consecutive week finds Iron Trade Review composite of fourteen leading iron and steel products unchanged at \$38.90.

earnings in Real Estate, Bonds and other securities. On the other hand they can honestly say that Life Insurance is something which everyone should carry for one or many reasons. Especially is it advisable as a means of forced saving for those who lack self-control or who have families that are free spenders. For such, Life Insurance is probably one of the best investments. It is also a good speculation because if you die before your natural age of expectancy your estate gets a higher rate of interest than it could possibly get in any other way with equal security. For instance, based on the average experience of millions of people, a man 35 years old should naturally live 31 years, 9 months, 10 days, and upon this expectancy the price of insurance is based. If the 35 year old man lives to 66 years old, he gets practically the same rate of interest that he would get if he put his money in the Savings Bank at 4 per cent. If he lives to a longer age than 66, he gets a lower rate of interest, but if he dies before 66 he gets a higher rate.

"The fact, however, that science, civic effort, and improved living conditions are tending for longer life, works material benefits to all policy holders. This added, to the fact that insurance money is invested by the best experts and is most carefully supervised, makes it possible for the insurance companies to add additional things which are very attractive. Although no insurance company can beat the law of averages, as to mortality, risk and interest rates, yet a man can do much for the unfortunate moment who die before their time, and especially those who meet with accident. For instance, a man at 35 pays an average premium of around \$200 a year, for \$10,000 whole life policy and if he dies at the end of the first year his estate gets \$10,000 on an investment of only \$200! If he lives to 66, he gets the entire \$10,000 will be paid to the insured if he is alive, in addition to giving him full insurance in the meantime. This form is called the Twenty Year Endowment Policy. A feature which many policies give is a stated monthly income for life in case of permanent disability; and also in the case of death, a fixed monthly income for a determined number of years."

**BORROWING ON POLICIES**  
"Life insurance policies—except Term Policies—have cash surrender value and paid up values straight after being in force two years. On demand after two years and Single Premium immediately. Of course, some people are foolish and when getting tired of paying premiums, 'cash in' or borrow on their policies to buy something which they very much want although probably do not really need. Usually it is a great mistake to borrow on a policy unless it is taken out for that sole purpose. The man who borrows on his life insurance policy is borrowing from his widow and children, and it is his only insurance policy, he is doing very wrong. Of course, policies which are taken out purely to get credit for an education or start in business—and used for the family's protection—may rightly be used for collateral. In fact this is a field for credit which has not begun to be appreciated, but in such cases the policies used for collateral with the bank or private parties should be additional policies taken out for that specific purpose. Policies taken out to protect the family should be kept sacred—never allowed to lapse and never borrowed upon except in cases of extreme necessity."

**INSURANCE AND NATIONAL PROGRESS**  
"Not only is life insurance a great boon to individuals, but it has become a great factor in financing industry and National Progress. Our railroad systems, great industries, and public utilities are financed largely by the insurance companies. The insurance companies were the greatest buyers of Liberty Bonds during the war and are now probably among the largest holders of our National debt. The development of the farms of the central west and south have been largely financed by the insurance companies. The first mortgage on nearly every large office building, hotel or apartment house is held by some insurance company while now, as above mentioned, some companies are making special arrangements for the making of money for the building of small homes. This means that when paying money into an insurance company we not only protect our family, and make a fair investment with a very good gamble attached; but we render a good service in helping to build up the country's agriculture, railroads, cities, public utilities and industry in general. Some of the companies are now establishing the excellent practice of loaning back to the people of each state an amount approximate to the premiums received from said state. Of course, a large amount of the financing of National progress is being done by the banks, investment dealers and other financial institutions, but without the collection of small sums by the insurance companies, America would not be anywhere near what she is today. ## EXPERT HELP IS NEEDED TO WRITE MAIL "AD" COPY

Meyer Press Organization  
Specializes in Direct by Mail Advertising

Direct mail advertising is one of the means for any business concern to bring its products to the attention of the prospective buyer. But this now widely used form of salesmanship will not be effective unless hours of careful study are made of the product to be advertised, the type of plant manufacturing this product and the idea the manufacturer wishes to get across to his prospective customers. Thus the method of direct mail advertising has developed from a rather crude beginning with a few simple and unattractive pamphlets and circulars to the skilled art of the present day featured by elaborate and attractive designs, and color schemes in its layout and very carefully written copy.

In late years the Meyer Press has made a special study of direct mail advertising and is now turning out large quantities of this work for many firms in Appleton and vicinity. This kind of service takes the work of writing advertising matter away from the merchant and places it on the shoulders of men who are especially trained and skilled in this profession.

Merchants and advertisers need only go to the Meyer Press office and outline the general idea of what they want to advertise to the persons in the direct mail advertising department. Workers in this department have learned to appreciate the customer's viewpoint and desires and while they will make suggestions as to the best means of bringing their customer's product before the public, they will carry out the central idea or the point to be stressed to the best of their ability.

Suggestions are made to the customer and sketches are drawn to give him a number of varied ideas to choose from. In certain cases it is necessary for the advertiser to make a special study of the product which he is to write about, and on some such occasions men from the Meyer Press have spent several days in the manufacturing plants of their customers studying minutely every detail of the product and just how it is made so that they may write their mail advertising with absolute knowledge of their subject.

More and more emphasis is being placed on the copy or reading material in direct mail advertising. The layout or design of the ad must be attractive in the first place so that people's attention will be drawn to the copy or reading matter, but when this has been accomplished it is of course essential that the copy be readable and full of interesting information.

## MORE UNFILLED ORDERS IN LUMBERMILL BOOKS

Orders booked by 331 of the principal sawmill mills during the week ended Feb. 27 were 13 per cent ahead of their production, but their shipments were only 9 per cent ahead of the same mark, so that there has been an increase in the total of unfilled orders. Bad weather in most consuming sections, however, according to the American Lumberman, Chicago, has been retarding the opening up of spring demand for building lumber. Retailers generally have their stocks in fair shape for spring orders, are keeping their holding small and depending on quick delivery of their wants. Some sellers had counted on an earlier opening of spring business and shipped unsold cars into the larger distributing centers, and price concessions have been obtainable on these. But quotations are firm practically throughout the list on items to be shipped from the mills and with building started the movement should speed up all along the line and long prices some buoyancy.

Southern pine bookings were 18 per cent ahead of production. There is some improvement noted in northern markets. Florida sales are lighter than they were recently, but trade with the south as a whole continues good. Oil field interests and railroads have been in the market for timbers. Mill output has been expanding in preparation for spring, and the weather has been more favorable to seasoning.

The West coast mills took orders for 3 per cent more than their output. The improvement over the previous week is largely accounted for by a gain in retail trade to the middle West, where yards are taking a good many mixed cars in preparation for spring trade. Bad weather is hampering development of Atlantic coast trade and Florida demand is less urgent. Stocks in California are more reduced and they will soon have to be replenished, as bright crop prospects are proving a stimulus to business.

Southern hardwood output has been gaining as a result of more favorable weather in mill sections, and buyers have depressed prices 10 to 15 per cent by withholding their orders. Industrial consumption is so active that buyers can not long remain out of the market, and as it is highly improbable that mills would continue to produce at less than current levels, quotations may be considered stable. Northern hardwoods are moving in good volume, mostly to automobile and furniture plants and prices are firm.

## Adventures Of The Twins

**SOME MORE ABOUT HICKYDOO**

"What shall we do now, Hickydo?" asked Nancy. "Blue Whiskers stole our automobile!"

The square wooden man stopped digging in his garden and thought for a minute.

"Please press my second button," he said slowly. "I'll have to look in my index again."

Nick pressed the second button in the wooden man's wooden jacket, and out flew a drawer exactly as before.

"Look for the bundle of pink papers at the back," said Hickydo next.

So Nick got the bundle of pink papers and then Hickydo said, "Look among the 'A's.' See what it says about stolen automobiles."

So Nick found the "A's" and the place where it said, "All about stolen automobiles."

"Here it is!" he exclaimed. "I tell all about everything!"

Hickydo nodded. "That's right," he said. "My index tells everything."

Read what it says:

"So Nick read, 'The first thing to do when anyone steals your automobile is to try to get it back.'"

"Very good advice," nodded Duke, the kangaroo. "If anyone stole my tail, I should try to get it back. I'm sure. And it's much the same thing."

Nick went on. "The best time to get it back is at once, if not sooner. The sooner, the quicker."

"Very true," nodded Duke. "Although it would mean about the same thing to say, 'The quicker the sooner.'"

"Will you please put the paper back in its place and shut the drawer?" Nick remarked. Hickydo said, "I don't want my index to get out of order. I'm very careful of my index."

"What do you eat?" asked Nancy, surprised that a wooden man should eat anything at all.

"Eats?" said Hickydo. "I eat solid facts and solid facts only. That's what I am eating now in my garden—solid facts to eat, facts about the earth, facts about the stars, facts about coat, facts about farming, facts about people, facts about automobiles, facts about horses—"

"There!" said Duke. "There are facts about facts, aren't there? I know it!"

"Well, I should say so. The facts are facts," said Hickydo in a confident tone. "Not a beautiful fact and not a beautiful horse, but a fact and a horse in a rose bed, to be sure, and a horse-to-go, but a fact and a horse, anyone who knows it is a fact. If you just press my first button and take out the bundle of green papers and look for the 'B's,' you'll find out all about apples, oranges and bananas, and all the other fruits."

"I'm afraid we haven't time," said Nancy anxiously. "We'll have to go after this. Whiskers must have and so if we can get him to give us the blue key to the side of the garage."

"Search!" Nick thought of some thing better. "What if he's eaten it?" he cried.

"If he has eaten it, I'll squeaked finding out the reason, sticking his head out of Duke's pocket. He's very fond of cherries. I happen to know. You see I was his prime minister for years in years before he turned me into a mouse. He loves cherries."

"There is only one reason why he wouldn't eat it," went on Hickydo. "Much as he loves cherries, he likes cherry gum better. He may have taken it to the candy."

# ORANGE, WEST GREEN BAY IN DISTRICT FINALS

## Macs Whip Clintonville, 27-7, And Bays Trounce Marion Cage Quint, 18-9

W. DePere Wins 15-11 Game from New London; Pails Eliminate Kiel, 19-15

**FRIDAY GAMES**  
W. DePere 15, New London 11.  
Marion 18, Kiel 9.  
W. Green Bay 18, Marion 9.  
APPLETON 27, CLINTONVILLE 7.

**SATURDAY GAMES**  
10-W. DePere vs Menasha.  
11-Marion vs Clintonville.  
7:30-Winners of Morning Games (Third).  
8:30-APPLETON VS W. GREEN BAY (TITLE.)

Appleton and West Green Bay high school basketball teams entered the finals of the Appleton district cage tournament Friday at Armory G and Menasha and W. DePere remained in the running for third place honors when Clintonville, Marion, Kiel and New London fell before fast attacks of the winners. In the afternoon the Pails eliminated Kiel in a hard-fought game, 19-15, and W. DePere put New London out of the meet in another hard battle, 15-11. At night West Green Bay broke loose in the second half to beat Marion 18-9 after holding the shot and foul unit and Appleton led little difficulty trouncing Clintonville 27-7.

Kiel came back strong in the second half to worry Menasha, but the initial lead was too great to overcome. W. DePere ran up a nice first-half lead on the Edisons to win Marion had the Purple 5-4 at the half but "Deadeye" Herber broke loose to win the game for the Bays in the last periods. Appleton held Clintonville to two long baskets while scoring on themselves.

W. DePere and Menasha and Marion and Clintonville clashed Saturday morning for a chance at the third honors at night. The big game of the evening should be the best of the meet with everything even. The Bays lost to Appleton here a few weeks before the season closed by a one-point margin in the most exciting game of the Orange home schedule.

**APPLETON-CLINTONVILLE**  
With Capt. Bob Ashman playing his best game of the year, following shots like a deer and made three four-pointers for the hoop, Appleton won the final by whipping Clintonville, 27-7, Friday night. The Orange again flashed a neat offense, good shooting power and a defense which allowed the losers two long rings and no short ones. The winners after Friday's game had run up the largest total score of any team in the meet and have held their opponents in the least baskets.

Capt. Ashman garnered six baskets and three free tries for 15 of his team's 27 points and Frank Cookson, aided him with four pretty markers. Voecks again excelled on defense. Sievers, who scored four out of five of his team's baskets on long tries to beat New London on Thursday night, was the shining light for Clintonville, getting both of his team's rings on long heaves and adding a free try for five of seven points.

Martin missed two chances to score on McCann's foul as the game started and then P. Cookson dropped a point on Martin's foul. Ashman got a basket and Schorr and P. Cookson missed tries on Pfefferle's and Sievers' fouls. Ashman got another ringer and McCann scored on Schorr's foul as the quarter ended with the Orange ahead 6-0. Steinberg opened the second period with two points on Kruse's foul. Ashman got a basket, made one of two free tries on Sievers' foul and missed one in Denison's misplay.

Olen missed a try on P. Cookson's foul as the half ended 11-0 for the Orange. Cookson opened the last half with a basket and after Martin had missed on McCann's foul Ashman and Cookson added two more double counters. Martin started Clintonville with two points on Steinberg's foul, but Schorr missed on Voecks' foul. Ashman poked the ball through the hoop and then Sievers got the loser's first ringer on a long try. Ashman scored again after three follow shots had been missed. Olen missed a try in Ashman's foul and Cookson got two rings to end the quarter with Appleton ahead, 25-7. Ashman opened the last period with two free throws on Kruse's foul and Sievers made one on Ashman's foul. Olen missed one on Ashman's foul. Denison did the same for Strutz and Sievers capped another long try for the losers. Denison, Pfefferle, and Sievers missed free tries on Strutz. Denison and Steinberg's fouls before the game ended. Clintonville was held scoreless the first two periods and Appleton got two free throws in the last one.

**WEST GREEN BAY-MARION**  
Only a last-half rally with Herber in the leading role, kept Green Bay in the running for the district title and allowed the Purple to whip a surprisingly tough Marion squad 18-9. The Bays shot badly the first half as did Marion but Herber came through with three perfect markers in the final half and the Purple offense picked up after a tongue-lashing by Coach "Murph" White. Herber got half his teams points with three ringers and three extra points and Hanson got two buckets. Elandt, star Marion center, was responsible for 6 of 9 points with two baskets and two free tries. Marion outplayed the Bays the first half and would have had a nice lead but for failure to make extra tries.

Zielin missed two free tries on Hanson's foul to start proceedings. Herber then caged a ringer. Durkop failed to score on Osmun's foul and Herber split even on Zielin's foul making the score 3-0 at the quarter. Here Marion opened up, Zielin and Elandt getting baskets and Elandt adding a point on Hanson's foul to end the half 5-3.

Shortly after play was resumed Herber tied the score with a ringer, then gave the Bay a lead with another and added two points from the foul line on Dunhop's misplay. He failed to score on Kruse's foul and then Hanson got a basket. Elandt and Zielin missed free throws on Quinn's two personals and the quarter ended 11-5 for the Baymen. Dapin missed a throw on Quinn's foul but Elandt raised Marion's hopes by following the try and poking the ball through the net. However, Herber got another ringer and Osmun and Elandt each counted on a double foul. Quinn got a basket and Zielin got Marion's last point on Hanson's foul. Osmun completed scoring with a short basket.

**NEW LONDON-NEW LONDON**  
W. DePere lost the second afternoon game from the foul line though W. DePere had a slight edge on floor work. The basket count was even when the Curemen eliminated the Red and White, 15-11. Each team netted five ringers but New London got only one free throw in eight tries while DePere was marking up five. Denbach started for the losers on offense netting three baskets and working the floor well while Charlesworth played a good defensive game. Schorr and Van Sistine looked best for the winners.

Van Sistine, 240-pound, opened the game by dribbling the entire length of the floor for a basket. Charlesworth missed a free try on Skendore's foul and then Skendore got a ringer. Chopin missed a try on Charlesworth's foul but Janssen nailed the basket on the followup, ending the quarter 6-0 for DePere. Ludwig missed two free throws on Chopin's foul. Beckert did the same for Skendore and Heisdorf made one on Ludwig's foul for the only point of the quarter.

Charlesworth started the last half with the Edison's first point on Skendore's foul and Woodward got one out of two on Ludwig's foul. Here Denbach and Ludwig excited the New London crowd with two markers in succession, but Skendore came back with another for DePere. Denbach got another basket and Kische missed a try on Heisdorf's foul as the quarter ended 10-7 for DePere.

Denbach opened the final quarter with a basket to put the Edison's one point behind and interest picked up until Chopin got two points on Denbach's personal and added a bucket. Menasha's center missed a try on another foul by Denbach. Heisdorf missed another on Denbach's third misplay of the quarter and Beckert missed two on Janssen's foul. Skendore added one on Charlesworth's foul and Ludwig got a ringer for the Edison's with two minutes to go. Ludwig missed two free throws on Janssen's foul before the game ended.

## GIANT BADGER IS WORKING FOR '28 OLYMPIC CONTEST

Jones Prepares Herb Schwarze, Shotput Record Holder, for Holland Meet

Madison (AP)—Smashing of the world's indoor record for the shotput last week by Herber Schwarze, Milwaukee student at the University of Wisconsin has revived interest in Coach Tom Jones' plans to groom the giant for the 1928 Olympics in Holland.

If the plans of the University track coach do not go awry, Schwarze will be in his senior year when the world athletic competition is held. The athlete was out the past year having traveled through Europe with the Illinois Athletic Club, although participating in meets unattached.

The world was deprived Jones of the pleasure of seeing the great Arnie Muecks perform in what would have been his senior year. The Wisconsin mentor has always believed that Muecks would have established even greater records if he had not been called into service.

Schwarze is keeping in trim and reports at the gymnasium indicate he is showing progress not only with the fourteen pound ball but also with the discus. He will be out for football next fall and may again be seen in the line as he was in 1925.

The Milwaukeean is the giant of the university tipping the scales at well over 300 pounds, but handles his bulk well, as was shown on the football team. He is confining his work to the shotput and discus, not attempting the javelin upon the advice of Muecks who has taken an interest in the greatest weight man since his time.

**LLOYD LARSON HEADS BADGER LETTER MEN**  
Madison (AP)—Lloyd G. Larson, Milwaukee, a member of the 1925 varsity football team, was selected president of the "W" club for the coming year, at a meeting following the presentation of letters to 100 men. Victor Chapman, Madison, cross-country and long distance runner is vice president. Jack Wilson, Milwaukee and Ed Crofoot, Mason, Wis., are both varsity football players. Larson will assume the office of secretary-treasurer.

The W club in which all Wisconsin athletes who have won a letter are eligible, will assume charge of the academy in football tournament next week, and the interscholastic tourney following week.

the expense of Kiel in the opener Friday afternoon, 19-15. The Pails ran up a big lead in the first half and it was needed as Kiel outplayed and outscored the winners in the final half, especially in the third quarter when the losers got nine points. The first half ended 14-1 for Menasha and Kiel took the final half, 11-6.

Allinger, Kiel forward, who played a nice game against Marion, found his bearings and displayed lots of stuff getting three baskets and working well on the floor and defense. W. Klutz scored 10 of Menasha's 19 points. Again the basket score was even, six all, but the Pails got the extra free tries.

The first quarter was a battle of free tries, Smith scoring on Voss's foul to start the works. Allinger missing on Smith's foul. C. Klutz scoring on Allinger's foul. Herber missing on Stump's foul. Smith got the only basket just before the half closed, making the score 5-0 for the Pails. Voss missed a try on Mott's foul and W. Klutz got a basket. He added another ringer and got one out of two free throws when Stump fouled him on the shot. W. Klutz missed a try on Burkhardt's foul and Reek got Kiel's first point when he split even on Mott's foul. Allinger missed two on Smith's foul. Stump split even on Pierce's foul and then Reek dropped a ringer for Kiel. Mott added a point on Allinger's foul and W. Klutz got another basket. Voss fouled him on the shot but he was unable to, KERT either free throw. The half ended 14-1 for Menasha.

Stump opened play with a free throw on Smith's foul and Pierce retaliated on Stump's personal. W. Klutz got a basket and then Kiel opened up. Allinger scoring twice from the field. Voss once and Allinger again in quick succession taking the Pails off their feet and ending the third period 16-13 for Menasha. C. Klutz opened the last period with a basket and Menasha started perfect stalling tactics which Kiel could not solve. Voss got a ringer for Kiel but Pierce added a point to the Pails total on Reek's foul and then the Pails stalled until the final gun.

## SHOT PUT KING

HERE SCHWARZE

Another world's record went by the boards at the national indoor track and field championships in Chicago the other night when Herber Schwarze put the 16-pound shot 50 feet, 7 1/2 inches. The effort excelled by a few inches the mark hung up by John Kuhn of Kansas State Teachers' College a short time ago. Schwarze is a Wisconsin athlete, but competed unattached in the Windy City games.

## BADGERS PLACE 4 IN MAT MEET

Five Western Conference and Missouri Valley Contests Start Saturday

Chicago (AP)—Five Western Conference and Missouri Valley meets hold the athletic spotlight on the middle west Saturday. The finals will be held Saturday night.

The preliminaries in the three 125 Ten and the two valley competitions, held Friday night, failed to bring up upsets but they did indicate a few possible winners and one certain meet winner.

Down looms as the principal contender in the Big Ten indoor track and field meet at Northwestern university, Evanston. Wrestlers, fencers and gymnasts of the Western Conference schools are competing for championships at Purdue University, LaFayette, Ind. In the wrestling preliminaries the University of Chicago was the only school to win two firsts. The wrestling results were Ohio one first and a third; Illinois a first; Chicago two firsts and a fourth; Michigan one first; Wisconsin two seconds and two thirds, and Minnesota a second and a third.

In the Big Ten swimming meet at Ann Arbor, Mich., Michigan placed 13 men in the preliminaries. Seven Gophers won a chance in the finals, while Northwestern and Wisconsin placed four men each. Lewis and Fargus will each be represented by three men in Saturday night's competitions.

## STUFFY GETS BIG PAY AFTER MARKED "DONE"

A year ago "Stuffy" Melnis was a free agent. The Boston Braves, not caring to renew his fat contract, asked waivers on him and not one of the other 15 big league clubs were interested. Being a 10-year man in the majors, Melnis was entitled to his unconditional release under those conditions. He accepted it rather than go to any of the minor league clubs anxious to secure his services.

For some weeks after the 1925 season opened he turned down any number of battering offers from the minors, having decided it was the big league or nothing for him. Then Pittsburgh, in the thick of the pennant race, took him on as an emergency measure. He did good work in helping to win the pennant and was the hero of the world series. The moment he entered the game the Pirates were a different team.

Now for the irony of fate. After being definitely passed up by the majors, Melnis the other day signed the highest salaried contract he has ever received.

**FAIR MAPLE BUSTERS WHIP MALE QUINTET**  
Aided by a 300 pin handicap, Kurrie Kids, girls bowling team whipped the Sonnenberg Specials, Menasha, two in three at 11:30 p.m. Thursday evening on the Eagle alleys, coping the match by 55 pins. E. Ellis was high for the winners getting a 197 game and a 535 series and a 513 series for the losers. The girls took the first game by 86 pins, but dropped the second by 26, coming back to take the third by 16 maps.

## 8 BLUE CAGEMEN EARN SWEATERS

Gault and LaBord Get "L" Awards; 9 Frosh Receive Sweaters; 6 Numerals

Eight members of the 1926 Lawrence college basketball team, winners of a tie with Cornell for the Midwest conference title, were awarded 1 sweater for their work this year. Two were awarded ALA emblems and managers of the team received sweaters. Thursday, nine frosh cagers were awarded 1926 sweaters and six were awarded numerals only. Two frosh managers also received numeral sweaters.

Sweaters were awarded to Zussman, Heldman and Clark, forwards; Ashman and Sund, centers; Capt. Briese Grove and Paze Johnson, guards. Gault and LaBord receive the ALA award and Manager Erickson received an L sweater. Assistant Manager Koebler received a 1927 sweater. Zussman and Gault are the only two men to finish school this year.

Numerals sweaters went to Trerher, Fischer, Schauer, Brossard, Monning, Hillman, Peitz, Jones, Courtney and Managers Humbright and Wensink. Numerals alone were awarded to Packard, Bassell, Bryan, Cagnot, Larson and Hanke.

## BLUE TRACKMEN START PRACTICE

Few Vets from 1925 Little Five Champs Form Nucleus for Fair Squad

With practically all of the members of the 1925 Lawrence college track team, Little Five champs, out of school, Coach A. C. Denny is building his 1926 hopes on a smaller nucleus of vets plus plenty of inexperienced material. Two undergraduates, Sorenson and Lockin, star distance men and winners of the two-mile and mile at the state meet last year, have left school and the only vets left are Hipke, Wachtman, McCannell, pole vaulter and high jumper, Capt. Starr, sprinter and jumper; Nobles, sprinter; Nason, pole vaulter, broad jump and javelin; and the Hyde twins, hurdles and middle distance runners.

Practices are being held twice a week at Alexander gymnasium with the first meet, the interschool event scheduled for April 21. On May 1, Oshkosh Normal invades Appleton for a dual meet and on May 22 the Wisconsin-Illinois conference meet will be held here. Early Forest, new member of the conference, will enter a team for its first real competition with Badger schools.

Two other meets will be held in May of interest to the Blue institution. The third annual Fox River Valley High School Conference meet sponsored by the L club will be held here May 15 for the eight conference schools and on May 23 the Midwest conference meet will be held at Mount Vernon, Iowa, under the auspices of Cornell college.

## Dave's Dots And Dashes

Ashman, Appleton captain, stood out as the class of the centers on Friday. The Orange leader, followed shots like a deer and made three four throws count when fouled in his following efforts. Frank Cookson also went good in the shooting department. McCann, star of Thursday night's game was covered so well he was unable to break loose.

Herber, Green Bay guard, is undoubtedly the star of the meet. He brought the Bays out of a slump to win from Marion Friday night, getting three baskets and three free tries and playing bang-up ball on defense, and his work featured the Bays win from Menasha.

Appleton has scored the most points to date and has held the opposition to the smallest number of baskets, four. Not an enemy basket has been scored from short range. Sievers getting a pair of long heaves Friday and Van Sistine shooting a three-quarters of the floor twice Thursday. We picked the Macmen to beat Green Bay; Menasha to beat W. DePere; Marion to whip Clintonville; and the last two are correct Marion will beat Menasha at night, maybe. We missed up only one yesterday, and DePere may surprise us again.

Outstanding stars Friday were, Alinger, Kiel W. Klutz, Menasha; Herber, Green Bay; Elandt, Marion; Denbach and Charlesworth, New London; Sievers, Clintonville; Ashman, P. Cookson, Voecks, Appleton.

With Andrews, star center and on fire more than half an offense, and the sidelines with bulls, Shawano high school case squad squared out a hard-fought 22-20 win over Kirtz, a village, in the opener at the Marion meet. If Andrews stays on when the Curdmen play Marinette or East Green Bay, we fear for Shawano's chances to go to Madison, and they say the lanky center is sorely afflicted. Pitting a new pivot man into a lineup on the eve of a turnover is hard on any team, no matter how good the sub.

Karkama is taking their being barred from the team in poor spirit. It reports are true. Any electric city in bent on seeing some good games, who come to the tournament is practically ostracized down there. "Is said That's mighty poor spirit, why take it out on yourselves and Lawrence, sponsor of the meet, for an action of the state athletic board, fair or unfair.

## EIGHT BLUE MAT CHAMPS CROWNED

Six Matches End in Victories; Council and Schweger Tie in Seventh

All-campus wrestling champions of Lawrence college for 1926 were crowned in seven classes Friday afternoon at Armory G in the second extra event in connection with the Appleton district high school cage meet sponsored by the college. Winners in each class was awarded a gold medal. A large crowd of high school students attending the afternoon games witnessed the matches.

Glenn, 165 pounds, forfeit to Zingler, 120 pounds, in the 115 pound class when he failed to appear. Kops, 127 1/2, downed Loferer, 122, in the 125 pound class in 1 min. 21 sec. Fung, 133, whipped Fuller, 136, in 6 min. 26 sec. in the 135 pound class. Purvis, 157 1/2, beat Gallagher, 140, in the 145 pound class in 2 min. 37 1/2 sec.; Schrader, 157, downed Leader, 152, in 46 sec. in the 155 pound class; Nobles, 165, whipped Sullivan, 159, in the 165 pound class in 1 min. 20 sec.; Council, 183, and Schweger, 178, wrestled five minutes to a draw in the 185 pound class. All matches were settled by one fall.

## VOCATIONAL CAGERS WALLOP BAY QUINTET

Appleton vocational school cagers swamped the Green Bay vocational school team in an easy game Friday evening at the Y. M. C. A. gymnasium by a score of 26-6. The local boys outplayed the Bay youths all the way and found no opposition. Koepsel was the big star of the game dropping eight baskets and a free throw for 17 of his teams 26 points.

## HOLD COUPLES MAPLE MEET AT ARCADE ALLEY

A couples bowling tournament for keepers of the Fox river valley will be held at 8 o'clock Sunday evening at the Arcade alleys. Prizes will be awarded the leading pairs.

## Prefontaine Outlines Home Talent Policy Of Fox River Valley Loop

Chance for Resident Player, Whether Good or Fair, Explained by Prexy

Fond du Lac—In the first public statement since being elected to the presidency of the Fox River Valley Baseball League, C. L. Prefontaine, Fond du Lac, issued the following statement Thursday:

"The plans and policy of the Fox River Valley League for 1926 are embodied in the future welfare of home talent baseball not only in this state, but nationally. I am pleased to see that at no time in the history of baseball has the 'national pastime' had such a bright and alluring future for the American public. The game rightly does belong to America and as the national game, every loyal and true American should support it. There is no sport as royal as baseball, no sport that is so everlastingly popular with the populace as the game played by our boys.

"Truly times have changed and as truly are the times changing for the future of baseball. In Wisconsin we have the honor of being the leaders in the bringing back of the only true American sport. We, home talent leaders feel we have but just started. I personally believe that all that has been done is but a very little compared to what this movement will reach eventually. We have at the present time some 25 leagues in the state and I know of a half dozen more that are in the course of formation. I am directing that work myself, and when that is accomplished work of a national scope will be undertaken.

**HIGHS TO PLAY**  
"The high schools are starting the movement to establish baseball at its prime sport, and one of the efforts of the Fox River valley league will be the formation of a high school league playing in the cities. We, grade schools and industrial institutions will be encouraged to form leagues in each city. The local managers will be urged to cooperate with the movement. All civic bodies will be asked to join this state wide movement. One added feature will be the playing of a summer schedule. The boys after school have nothing but time on their hands, and it is very heavy at times, this year we shall try and keep the boys busy with a grade city league headed by some of the officials of the local teams in each city.

"Some comment and a little bit of world-wide sarcasm has been injected into the old home talent situation. Some of the old regime seem to believe their own selves when they utter their thoughts, about, sometimes they are overheard and sometimes not. But many seem to believe that 'Home Talent' means an amateur or 'sand lot' player. They seem to lose track of the fact that there is a vast difference between 'amateurs' and 'professionals' no do we desire to be termed 'amateurs'. Home talent is what the word indicates, and nothing else—home, semi-pro, preferred—but not amateurs. Simply because the player resides within the city limits does not make him any less considered as a professional.

"What is the difference if you put on a coat of 'professional' and play for a salary or take a coat of 'home talent' hue and be paid for your services? The only difference is that as a 'home talent' player you are adopting the same, consistent method of staying a successful league with sound business principles, keeping the overhead down, giving the fans a high grade of ball for a reasonable figure, and making every single player a home boy. There are no half way measures this year. Every player must reside within the city he represents and no outsiders are allowed to become members of any team unless they have resided at least 90 days prior to signing of the contracts. The same features of last year, salary limited to \$45.00 for the entire team per game with a split at the seasons end. Same number of

**HELEN INS ANOTHER NET TOURNAMENT, NEXT!**  
Nice, France (AP)—Miss Helen Wills, American lawn tennis champion, added another tournament victory to her growing rivera list Saturday. She defeated Miss Isabella Lee Munford of Boston in the singles final of the New tournament by the overwhelming score of 6-0, 6-1.

Miss Wills and Charles S. Kingsley advanced to the final in the mixed doubles by defeating Miss Ardelia and Charles F. A. Eschmann 6-3, 7-5. They will meet Mik. Vlasto and Henri Cochet in the final.

**Savannah, Ga.—Hollis Sullivan, Afrikaner, and Lou Guglielmini, New York** fought a draw, 10 rounds.

players allowed 15 per team and the same features that made the Eastern Wisconsin league so successful last year. We have taken away nothing from the players but added much in the line of progressive legislation embodying many novel features.

**SCHOOL FOR UMPES**  
"This year the umpire corps will be composed of ten members. Six local umpires and four central men. They will work three Sundays and be off the fourth. They will be placed upon a salary basis payable monthly and be uniformed in grey. They will meet in session monthly with the president, who will conduct a school securing uniformity of work. This will be an added feature to the up-building and will place upon a firm basis the official staff. Strict law and order will be the rule on the field. The players will be under the sole command of the umpires and as such, will be made to play a fast snappy game. The official scoring will be under the president who will also meet with them monthly. All umpires and scorers will be local men and be appointed by the president and under his sole direction.

"I wish to state that this league is for the home boys, and as I am assured by each and every manager that every local boy will be given a chance, and that means every boy in every city that has or thinks it has any ability in him. There are no cities superior to the others in the circuit. By eliminating outsiders, all positions on the teams will be open to everyone. I am sure that the fans in the circuit will be satisfied when the season rolls around to find that we mean business. I have issued instructions to all managers that in all instances where a boy is not considered fast enough for a regular berth, and shows promise, room shall be made for him to accompany the team, regardless of which city it might be. The experience gained by being present with the

## How, When, Where, What, Why And Who?

To attempt to tell you all those things is a mighty big job for anyone to tackle—yet not too big for the A-B-C Classified Section.

To answer questions—solve problems—remove perplexities—is just what this section is designed to do.

Its ability to meet such wide requirements hinges upon the fact that all the people of Appleton and vicinity bring their buying and selling offers to these columns and thus make it a well-rounded dictionary of everyday information.

One or two people cannot tell you all the buying and selling questions you can ask—but all the people can.

And since you cannot talk personally to all the people of Appleton every day, there isn't any logical alternative except to read the classified section daily, is there?

Assuming, of course, that you want to know things and succeed!
